PART I.

Orders and Notifications by the Lieutenant-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 5141A.

APPOINTMENTS AND TRANSFERS.

GENERAL.—*No. 4913A.—The 21st December 1906.*—Mr. J. McPherson, M.A. (Aberdeen), is appointed substantively *pro tempore* to the sixth grade of Deputy Magistrates and Deputy Collectors, and is posted to the head-quarters station of the Patna district.

Patna.

No. 4915A.—The 21st December 1906.—Mr. E. G. Taylor, Deputy Inspector of Excise, Bengal, is appointed substantively *pro tempore* to the seventh grade of Deputy Magistrates and Deputy Collectors, and is appointed to be Special Excise Deputy Collector in the district of Cuttack.

Cuttack.

No. 5077A.—The 27th December 1906.—Mr. J. Johnston, Officiating District and Sessions Judge, Darbhanga, is appointed temporarily to act as Additional Sessions Judge of the 24 Parganas district.

DRAFT NOTIFICATIONS.

No. 3629For.—The 22nd December 1906.—In exercise of the powers conferred by section 31 of the Indian Forest Act, 1878 (VII of 1878), and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to make the rules set forth below to regulate the cutting and removal of timber and forest produce, the pasturing

of cattle, and protection from fire within the demarcated blocks of the Protected Forests in the Porahat estate, in the district of Singhbhum :—

RULES TO REGULATE THE CUTTING AND REMOVAL OF TIMBER AND FOREST PRODUCE, THE PASTURING OF CATTLE AND PROTECTION FROM FIRE IN THE DEMARCATED BLOCKS OF THE PROTECTED FORESTS IN THE PORAHAT ESTATE.

Removal of forest produce for private use, and pasturage by tenants of Porahat estate.

I. Persons who are *bond-fide* residents on land belonging to the zamindar in the Porahat estate, whether in khas, kharposh or brahmottar villages (hereinafter referred to as villagers), may do any of the following acts free of charge within such part of any demarcated forest block as lies within the boundaries of their respective villages, namely :—

(1) take any forest produce for their own private use, but not for sale or barter ;

(2) pasture any cattle (other than sheep and goats) which are *bond fide* their own property :

Provided as follows :—

Proviso.

(*a*) This privilege shall not extend to professional graziers ;

(*b*) The Deputy Commissioner may, in order to promote tree growth, close any area to the pasturing of cattle for any period not exceeding five years when there is, in his opinion, such sufficient grazing ground available elsewhere, as is not too inconveniently situated with reference to the villages concerned ;

(*c*) If the inhabitants of any such village habitually infringe these rules, or permit of their being infringed, the Deputy Commissioner may, by an order in writing, withdraw the special privileges exercised by them for a period not exceeding five years.

Setting apart of special areas for use of residents.

II. Any resident of any village within the said estate shall be entitled to do any of the acts mentioned in Rule I free of charge in any area set aside for the purpose by the Deputy Commissioner.

Grant of licenses to cut and remove forest produce, and to pasture cattle.

III. Licenses may be granted by the Forest Officer—

(*a*) to any inhabitant of a town or village in the vicinity of a demarcated forest block authorizing him to take trees, timber or other forest produce therefrom for his own use ; or

(*b*) to any person authorizing him to fell or remove trees or timber or other forest produce from such block for the purpose of trade ; or

(*c*) to any person authorizing him to pasture cattle in such block.

Every such license shall provide for payment by the licensees at the current rates for trees, timber or other forest produce taken, or for the right of pasture conferred under.

Prohibition against cutting, converting and removal otherwise than in accordance with these rules.

IV. No person shall cut, convert or remove from the said forest blocks, or otherwise deal with, any tree, timber or other forest produce of the said blocks, or pasture any cattle therein, except as provided by Rules I, II and III.

Prohibition against injury and waste.

V. No person who is authorized by or under these rules to cut, convert or remove trees, timber or other forest produce shall injure or wastefully use any tree, whether in the course of collecting any forest produce or in any other way :

Provided that this prohibition shall not extend to the lopping of trees for the collection of lac by the residents of the village within which they stand.

Method of cutting green trees.

VI. Any person who fells a green tree under these rules shall cause the same to be cut as nearly level with the ground as may be feasible.

Protection against fire.

VII. (*a*) No person shall use fire in the collection of forest produce, for the improvement of pasturage lands or for any other purpose.

(*b*) The fire-protection rules for the time being in force in the Reserved Forests of the Singhbhum Division shall apply, *mutatis mutandis*, to the demarcated protected forest blocks situated in the Porahat estate.

Delegation of powers.

VIII. The Deputy Commissioner may, by order in writing, delegate to the Forest Officer all or any of the powers conferred on himself by these rules, and may, by a like order, resume any power so delegated.

No 3630For.—The 22nd December 1906.—In exercise of the powers conferred upon him by clauses (*a*) and (*c*) of section 29 of the Indian Forest Act, 1878 (VII of 1878), the Lieutenant-Governor is pleased to declare that, with effect from the date of this notification, within the demarcated blocks of the Protected Forests in the Porahat Estate, in the district of Singhbhum—

(*a*) the following species of trees shall be reserved, namely :—

(1) Sâl (*Shorea robusta*) ;
(2) Asan (*Terminalia tomentosa*) ;
(3) Kusum (*Schleichera trijuga*) ;
(4) Mango (*Mangifera Indica*) ;
(5) Mahua (*Bassia latifolia*) ;

(*b*) the following acts shall, subject to any rule made in respect of the said blocks under section 31 of the aforesaid Act, be prohibited, namely :—

(1) the quarrying of stones ;
(2) the burning of lime and charcoal ;
(3) the collection or subjection to any manufacturing process, or removal of any forest produce ;
(4) the breaking up or clearing for cultivation, for building, for herding cattle or for any other purpose, any land.

No. 3631For.—The 22nd December 1906.—It is hereby notified under section 4 of the Indian Forest Act (VII of 1878, as amended by Act V of 1890), that it is proposed to constitute the land within the boundaries described below as Reserved Forest under the provisions of the said Act:—

The following are the conditions of sale:—

1. The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2. The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for

which, provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3. The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M., but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4. Each lot shall contain five chests.

5. A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,000 per chest, Rs. 200 per chest.
On bids of Rs. 1,000 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

6. The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7. The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to Government for realization in such manner as to him shall seem fit.

8. No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9. The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10. Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

11. No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorised agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full, has been made by the said purchaser or his order.

12. The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13. With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bond fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remains a sufficient number of lots of the opium to complete the said twenty-five.

15. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—

No. 1, Certificate of the opium advertised for sale;

No. 2, Report of the examination of such opium.

17. The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1905-1906, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the [illegible] indiscriminately taken, for the purpose of comparison, from the despatches on arrival [illegible]atta, may be seen on personal application at the office of the Board of Revenue.

18. Any further information respecting weight or quality of the opium advertised [illegible]ale that may be desired by parties connected with the trade will, as heretofore, be [illegible]nished to them on personal application at the office of the Board of Revenue But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

NOTIFICATION

CORPORATION OF CALCUTTA

THE Corporation of Calcutta have at their meeting held on the 27th November 1906 made the following rules under section 85 of the Calcutta Municipal Act for the conduct of business at their meetings, after previous publication of the draft as required by section 568 of the said Act. The rules are now published for general information in compliance with the provisions of section 570 of the same Act and shall come into force from the date of their publication.

Date and hour of monthly and adjourned meetings.

1. The Ordinary Monthly Meeting of the Corporation shall usually be held on the first Wednesday of each month, or if adjourned, on the date to which it may be adjourned, unless it be a public holiday, in which case it shall be held on the first Wednesday that is not a holiday. The hour of meeting shall be 4 to 6 P.M. If at the expiration of 15 minutes after the hour at which any meeting of the Corporation is appointed to be held, the number necessary to form a quorum be not present, such meeting shall be adjourned to the next succeeding Wednesday which is not a holiday.

It shall be the duty of the Chairman to prepare the list of business to be brought forward at meetings of the Corporation.

Special meetings.

1. (*a*) When a special meeting has been convened upon a requisition made in writing by any seven or more Commissioners, the terms of the requisition with the names of the signatories shall be set out in the agenda paper.

Order of business

2. At all ordinary meetings of the Corporation the order of business shall ordinarily be as follows —

(1) Interpellations.
(2) Confirmation of Minutes.
(3) Business remaining undisposed of (if any) from previous meetings.
(4) Reports of Special Committees.
(5) Recommendations of the General Committee.
(6) Notices of motion in the order in which they have been received.

Provided that the Corporation may, by resolution, at any meeting vary the order of business.

Interpellations.

3. (*a*) Any Commissioner who has given forty-eight hours' clear notice to the Secretary before the time of meeting may, before other business commences, ask a question or questions of the President affecting the municipal administration of Calcutta. The questioner may briefly explain his question when putting it, and it shall be at the discretion of the Chairman or President to explain his answer, but no debate shall be allowed on any question. The President shall, when he thinks it advisable, have the answer to such question printed and laid before the meeting.

(*b*) Questions must not be argumentative or hypothetical or defamatory of any person or section of the community.

(*c*) The Chairman may disallow any question which does not conform to Rule 3 (*b*) above; and in such cases, the question shall not be entered in the Minutes of the proceedings of the meeting.

(*d*) The question asked and the answer given to it shall be entered in the Minutes of the proceedings of the meeting.

Mode of deciding questions.

4. Every matter to be determined by the meeting shall be decided after motion made and question put by the President, and shall be resolved in the affirmative, or in the negative, according to such majority of votes as the law requires. No discussion shall take place on the method of voting.

Notices of motion.

4. (*a*) Every notice of motion shall be in writing, signed by the Commissioner giving the notice, and shall reach the Secretary not less than forty-eight hours before the time of meeting; a notice of motion not received in time shall not be entered upon the agenda of the meeting.

(*b*) If a motion, notice of which is specified in the agenda paper, be not moved either by the Commissioner who has given the notice, or by some other Commissioner present when it comes on in due course, it shall be considered as dropped and shall not be moved without fresh notice.

(*c*) A motion once made and seconded shall not be withdrawn without the consent of the Corporation.

Motions, etc., to be in writing.

5. (*a*) Every motion and amendment shall be put into writing and delivered to the President, who, if he considers it to be in order, shall put it in the form of a question to the meeting, after which it may be debated. A Commissioner, who has brought forward a motion or amendment may withdraw the same, unless it has been seconded, and any Commissioner desires that it be put to the vote.

(*b*) If any motion or amendment involves more than one point, the President, with the concurrence of the majority of Commissioners present and voting, may divide it so that each point may be determined separately.

Motions to be seconded.

6. Every motion or amendment of a motion must be seconded; if not seconded, it shall not be debated or put to the meeting and no entry thereof shall be made in the Minutes.

Motion for adjournments.

7. (*a*) A motion for adjournment shall have precedence over all other motions. It must be moved and seconded without a speech and shall be put by the President without debate.

(*b*) No Commissioner shall be at liberty to move an amendment to a motion for the adjournment of the meeting or of a debate, unless it relate to the question of date.

Motions or amendments not to be twice brought forward.

8. No motion or amendment shall be proposed at any meeting, or if such meeting be adjourned at the adjourned meeting, which, at the same meeting, or at the adjourned meeting, has been resolved in the affirmative or negative. The question whether any motion or amendment proposed has already been resolved in the affirmative or negative is a point of order.

Amendments cannot be mere negatives.

9. Amendments having the mere effect of a negative vote shall not be moved.

Mode of debate.

10. In discussing questions coming before the meeting a Commissioner shall speak from his place, shall rise when he speaks, and shall address the President. At any time, if the President rises, any Commissioner speaking shall immediately resume his seat, but may continue his address after the President sits down. No Commissioner shall be heard except upon business then regularly before the meeting, or, by permission of the President specially obtained, in explanation of what he had said in a previous debate or as personal explanation. No Commissioner, other than the mover of the original resolution or of an amendment, shall speak more than once upon a question, but such movers shall be allowed, if they have spoken to the question when making their motion or amendment, to close the debate with a reply. If the seconder of an original motion or amendment sits down without speaking upon it, he shall not thereby lose the right of addressing the meeting thereon, provided that at the time of seconding such motion or amendment he expressly reserves the right of speaking thereon at a later period of the debate. A Commissioner who has spoken once may, with the permission of the meeting but not otherwise, speak again upon any amendment thereof afterwards moved. A Commissioner may explain, with the permission of the President, what he has before said if it has been misunderstood. The President when putting the motion may address the meeting, unless he is himself the mover of an amendment, in which case the mover of the resolution shall have a final reply. The mover of a motion shall not speak for more than fifteen minutes and other speakers for more than ten minutes except with the permission of the house. The mover of the original motion or of an amendment shall have the right to speak for 10 minutes in reply.

11. It shall be the duty of the President to preserve order and to secure for the Commissioners a fair hearing.

12. A member may even though there be a motion and an amendment before the Corporation move "that the Corporation do now proceed to the next business" or "that the question be now put," on the seconding of which the question of closure shall be immediately put to the vote without discussion, provided that no such resolution shall be declared to be carried unless at least two-thirds of the number of the Commissioners present and voting shall vote in favour of it.

Motions "to proceed to the next business" or "that the question be now put."

13. The President shall decide all questions of order. He shall also decide between two or more Commissioners rising to speak by calling on the Commissioner whom he first observed to rise in his place. He shall be entitled, in the event of disorder arising, to adjourn the meeting to a time he may then fix, and his quitting the chair shall be the signal that the meeting is adjourned.

Duty of President.

14. Any Commissioner may, at any time, submit a point of order to the decision of the President.

Points of order.

The Commissioner who is speaking when a question of order is raised shall resume his seat until the question has been decided by the Chairman or President.

No discussion on any point of order shall be allowed.

15. If only one amendment be proposed to any motion before the Corporation, the amendment shall put to the meeting first. If more than one amendment be proposed, the last amendment shall be put first, and the others in the same order, the latter amendment having priority of the former If an amendment be carried, the original motion or the portion of it affected by such amendment and any other amendment similarly affected by the amendment carried shall be deemed as lost. If no amendment be carried, the substantive motion shall then be put to the meeting.

Mode of taking the sense of the meeting on motions and amendment.

16. Any member who intends to submit an original motion or an amendment shall read the same before speaking to it.

Member submitting motion or amendment to read same before speaking thereon.

17. When for the purpose of explanation or for any other sufficient reason, any Commissioner shall have occasion to ask a question of another Commissioner relating to the business of the meeting, he shall ask the question through the President.

Questions from one Commissioner to another.

18. When any general question is being discussed such as a Quarterly or Annual Report, or the Resolution of Government on the Annual Report, any motion referring the report or any portion of it to the General Committee or any other Committee for disposal or report, may be moved without previous notice; but no motion based on the contents of such report or resolution and having the effect of definitely committing the Commissioners to any opinion or line of action shall be moved unless not less than 48 hours' previous notice shall have been given. What commits the Commissioners to any opinion or line of action shall be a question of order.

Previous notice to be given of motions in certain cases.

19. Where a resolution either adopting or rejecting a motion has been duly passed by the Corporation, no motion which if carried would have the effect of altering, rescinding or varying such resolution shall be considered within six months, until such resolution has first been rescinded. And no motion to rescind such resolution shall be considered except upon the recommendation of a Committee, or after notice under Rule 4 (a) and with the consent of a majority of the Commissioners present in meeting and voting.

The question whether a motion is or is not contrary to a resolution of the Corporation is a point of order.

20. Meetings of the Corporation shall be held in public, but it shall be open to any Commissioner to move that any matter concerning land acquisition and officials of the Corporation to be determined at a meeting shall be debated in private.

Debates in private.

A motion to debate a matter in private need not be read, and may be proposed either while the subject concerned is under debate or before. Such a motion shall have precedence over any other motion or amendment relating to the matter concerned. It shall be moved and seconded without a speech, and shall be put by the President without debate Provided that no such motion shall be declared to be carried unless at least two-thirds of the number of the Commissioners present and voting shall vote in favour of it.

When it is resolved to debate a matter in private the Chairman, the Commissioners, and the appointed officers of the Corporation only shall be present.

21. In making any appointment under sections 25 and 63 or in making any acting appointment under section 74 the Corporation shall proceed by the system of elimination until one candidate obtains an absolute majority of the votes of the Commissioners present and voting.

Appointments under section 25 and section 63 to be by ballot.

Explanation:—Any Commissioner present may propose any candidate, and the names of all the candidates proposed and seconded shall first be ascertained. The President shall then ascertain by means of a ballot the votes in favour of each candidate so proposed and seconded, no Commissioner being allowed to vote for more than one candidate at a time. If at a ballot none of the candidates obtain an absolute majority of the votes as aforesaid, the candidate obtaining the least number of votes shall be eliminated and after such elimination a fresh ballot shall be taken. This process of elimination shall be continued until one of the candidates obtains more than half the votes of the Commissioners present and voting. The candidate thus obtaining an absolute majority shall by the President be then declared to be duly elected.

Voting by ballot.

22. Where the question to be decided upon relates to the pay or promotion of a Municipal employee, if a ballot be demanded by at least ten members, the question shall be decided by ballot.

Recording names of voters in cases of poll.

23. Whenever a poll is taken, the names of the members voting for and against the motion or amendment put to vote shall be recorded in the Minutes of the proceedings.

Mode of appointing Special Committees.

24. Whenever any Commissioner shall move a resolution for the appointment of a Committee of a special nature under section 96 of the Act, and this resolution is duly seconded and carried, it shall be incumbent on the mover—(1) to move that the Committee shall consist of a definite number of Commissioners (any other number may be moved as an amendment); and (2) to draw up a list of as many Commissioners as may be thus fixed for constituting the Committee. On this list being seconded, any other Commissioner may either move the substitution of any one or more names for one or more of those contained in the list, or draw up a different list, and move that it be substituted for the list proposed by the mover of the original resolution.

Provided always that if a ballot be demanded by at least five members, the Chairman shall put it to the meeting, whether they wish the election to be by ballot, and if this is carried, the Committee shall be elected by ballot.

Chairman submitting reports of Committees to also submit motion for confirmation.

25. Upon the consideration of the report of a Committee it shall be the duty of the Chairman or President, or in his absence some member of the Committee, to submit to the Corporation a motion for the confirmation thereof.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Nadia, will be put up to sale at the Nadia Collectorate on Friday, the 4th January 1907, corresponding to 1313 (B.S.).

Conditions of Sale.

1st.—The estates to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of the estate will be considered as the proprietor of the estates and the entire proprietary right of Government in such estates will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings, and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

POSTAL NOTICE.

POSTAL ARRANGEMENTS FOR TROOPS ATTENDING THE AMIR'S CONCENTRATION.

THE following Notice is issued as to the conditions under which postal articles may be sent to and from the camp post-offices opened to serve the troops during the Concentration at Agra in January 1907:—

ARTICLES FOR CAMP POST-OFFICES.

Mode of addressing Postal articles.

Articles posted for delivery from camp post-offices should be addressed as follows:—

X. Y.,
(Regiment, Battery, Staff Appointment, Brigade or Department),
AMIR'S CONCENTRATION.

No post-town should be added to the address, and special care should be taken to specify clearly in each case the Regiment, Battery, Staff Appointment, Brigade or Department of the person addressed.

What may be sent.

All classes of postal articles (private and official), viz., letters, postcards, newspapers, packets, and parcels, whether registered, unregistered, value-payable, or insured, may be posted for delivery from camp post-offices Money-orders also may be sent, but no savings bank business will be transacted.

Delivery.

Unregistered articles of the letter mail will be delivered through orderlies. Registered articles of the letter mail and registered and unregistered parcels will also be delivered through orderlies in the absence of written instructions to the contrary from the addressees. The receipt of the orderly or other person to whom a registered article or parcel is delivered will be taken on the usual parcel receipt form. Intimation of the arrival of insured and value-payable articles and money-orders will be given, through orderlies, to addressees and payees who are advised either to call at the camp post-office concerned, in person, or to authorise the orderlies, in writing, to take delivery of these articles and to pay any postal charges that may be due on them, or to receive payment of money-orders.

N.B.—Any person who does not wish his registered articles or parcels delivered through an orderly must give notice, in writing, to the camp post-office by which he is served.

ARTICLES FROM CAMP POST-OFFICES.

What may be sent.

All classes of postal articles (private and official) may be posted at camp post-offices. Money-orders also may be sent, but no savings bank business will be transacted.

Postage stamps.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or the Superintendent, Government Central Press, Bombay, or the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

CHINA SEA—The Philippine islands—Luzon, east coast—Albay gulf.

Rapurapu strait—Beacons and buoys established.

No. 490 (first publication).—The British Admiralty has given notice (No. 1361 of 1906) that the undermentioned beacons and buoys have been established to facilitate the navigation of Rapurapu strait as follows :—

(*a*) Two beacons have been erected on Rapurapu island, the rear beacon being in the shape of a white triangle, point downwards, about 13 feet high, erected about 100 feet within the coast line, and the front beacon a white triangle, point upwards, erected on the edge of the reef 14 feet above high water, both beacons having a black vertical stripe passing through their centres.

These two beacons in line S. 6° W. lead through the channel eastward of Middle reef. They have been placed on the chart at distances of 2$\frac{1}{2}$ miles and 2$\frac{8}{10}$ miles S. 8° W. respectively from East point.

(*b*) A red conical buoy, marked No. 2, has been placed in a depth of 4 fathoms off the southern edge of Dickerson or Derickson reef, situated at a distance of 2$\frac{8}{10}$ miles S. 28° W. from East point.

(*c*). A red conical buoy, marked No. 4, has been placed in a depth of 4 fathoms on the south-eastern edge of Columbia reef, situated at a distance of 4$\frac{6}{10}$ miles S. 45° W. from East point.

Approximate position, East point, lat. 13° 15$\frac{1}{2}$′ N., long. 124° 6$\frac{1}{2}$′ E.

(*Variation Nil in 1906.*)

This Notice affects the following Admiralty Chart :—Batan island to San Bernardino island, No. 3368 : Also Eastern Archipelago, part I, 1902 page, 382.

CHINA SEA—Natuna islands.

Devonport reef—Probable position.—Montrado (Menterado) breakers—Non-existence of.

No. 491 (first publication).—The British Admiralty has given notice (No. 1366 of 1906) that a search has been made for Devonport reef in approximately lat. 3° 54½′ N., long. 108° 31½′ E., without any indication of its existence being discovered.

It is thought probable that the ship *Devonport* was lost on the easternmost of the Penungul reefs, on which a depth of 2½ fathoms has been recently found to exist in approximately lat. 3° 52½′ N., long. 108° 29′ E. From this position the bearing of Kamodi island (S.W. by W.) is the same as that given to fix the position of the Devonport; and if the second bearing (N.W.) given by the Devonport be applied to the summit of cape Senubing instead of Senua island, for which it may have been mistaken, it would place the vessel on the easternmost of the Penungul reefs, as already described.

The name of Devonport reef has therefore been transferred to the Eastern Penungul reef, the former Devonport reef being expunged.

Also, that a search for Montrado or Menterado breakers has also been made, but that no indication of its existence could be found, depths of from 40 to 50 fathoms being found over the position assigned to it. It has therefore been expunged from the charts.

Approximate position, lat. 3° 31′ N., long. 108° 4′ E.

(*Variation 2° Easterly in 1906.*)

This Notice affects the following Admiralty Charts:—China Sea, No. 2660a; Natuna islands, No. 1348: Also China Sea Directory, Vol. II, 1906, page 64.

CHINA, EAST COAST—Hong-Kong.

Wrecks in approaches.

No. 492 (first publication).—The British Admiralty has given notice (No. 1367 of 1906) that the undermentioned wrecks are reported to exist in the track of vessels in the approaches to Hong-Kong:—

Eastern approach—

A mast about 6 feet above water, apparently attached to a large vessel, lies sunk in a depth of 14 fathoms in approximately lat. 22° 14′ 30″ N., long. 114° 26′ 50″ E.

Western approach—

A mast about 5 feet above water, apparently attached to a large junk, lies sunk in a depth of 7 fathoms in approximately lat. 22° 11′ 10″ N., long. 114° 4′ 25″ E., on chart No. 1180.

Mariners are warned that, consequent on the typhoon which occurred in September last, there may be other wrecks in the vicinity of Hong-Kong.

This Notice affects the following Admiralty Charts:—Huiling to Hong-Kong harbour No. 2212; Hong-Kong to the Brothers, No. 1962; Macao to Pedro Blanco, No. 3086; approaches to Hong-Kong, No. 1180: Also China Sea Directory, vol. III, 1904, pages 65, 61, 127.

DEPARTMENT OF AGRICULTURE, BENGAL.

FINAL FORECAST OF THE INDIGO CROP OF BENGAL, 1906.

[On an average of five years ending 1904-05, the area under indigo in the territory to which this forecast relates has represented some 40·03 per cent. of the total area under indigo in British India.]

Explanatory.—In the preliminary forecast of the indigo crop of 1906, returns were shown for fifteen districts of this Province and for one district, viz., Malda of the newly-formed Province of Eastern Bengal and Assam. Under orders of the Government of Eastern Bengal and Assam, Rangpur and Malda are no longer to be dealt with in the forecasts of

Bengal Proper. In Burdwan, Murshidabad, and Cuttack, no cultivation of indigo was undertaken during the year. The returns of fifteen districts only are being reviewed in this forecast.

Character of the season.—Sowings, as reported in the preliminary forecast of October, were delayed a little owing to want of rain early in the season. In North Bihar, which is the most important tract under indigo in the Province, the crop suffered very much from heavy rain and, later on, from floods.

Area sown.—The area sown this year, as compared with the two previous years, is shown below:—

	Acres
Area sown in 1904	... 223,100
Area sown (as now revised) in 1905	... 161,500
Area sown in 1906	... 137,800

Character of the crop.—Of the important districts, Champaran reports an outturn of 84 per cent. of the normal, Muzaffarpur 83 per cent., Darbhanga 57 per cent., Saran 66 per cent., Purnea 50 per cent., and Monghyr and Bhagalpur 80 per cent. each. Some of these estimates appear to be unduly low. These figures would mean that in North Bihar, including Monghyr, the outturn on the whole would be only 45 per cent of a normal crop, or some 14,060 factory maunds. In my preliminary forecast, after consulting the Secretary, Bihar Indigo Planters' Association and Messrs. Moran and Company's forecast, I estimated that these districts would produce a little over 20,000 factory maunds. I see no reason to decrease this estimate. Since the issue of the preliminary forecast, prospects are reported to have improved in four districts and to have become worse in two.

According to the district returns, the outturn in Lower Bengal (including the minor districts of Bihar) would come to 3,631 factory maunds. This estimate is probably nearly correct.

Outturn.—On the whole, I would estimate for the Province an outturn of about 24,000 factory maunds.

The total outturn of the crop last year, exclusive of Rangpur and Malda, amounted to 21,122 factory maunds.

According to the trade return supplied by Messrs. Moran and Co, last year's total outturn for the Province was 23,601 factory maunds. The total outturn of the present year's crop is now estimated by this firm at 22,000 factory maunds for North Bihar, and at 3,800 factory maunds for Lower Bengal, making a total of 25,800 maunds for the entire Province.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

No. 2831—42.

Extract (paragraphs 1 and 2) from the Proceedings of the Government of India in the Home Department (Public), under date Calcutta, the 8th December 1899.

RESOLUTION.

THE Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from

want of evidence to show that the applicant is a British subject, and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, in the form appended to this Resolution, signed by the head of the district (in a Presidency Town, the Commissioner of Police) in the case of residents of British India and by the Political Officer in that of residents of Native States For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer (in a Presidency Town, the Commissioner of Police) or Political Officer, as the case may be.

THE INDIAN LAW REPORTS

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,

or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PERSIAN GULF—BAHREIN HARBOUR.

Position of buoys.

No. 500 (first publication).—The Bombay Government has given notice (No. 129, of 1906) that the following buoys are placed in position:—

A conical red buoy surmounted with 10 feet black staff and basket on top, on the 18 feet patch at the entrance channel.

A conical black buoy off Khaseifa Spit on the following bearings:—Minarets S. 9° W. Kalali Tower S. 47° E., Muharrak Fort closed in by town S. 21° E.

On the first opportunity a can red buoy will be placed on the West Spit with the following bearings:—Muharrak Fort S. 60° E., Ras Riya N. 87° E., Centre of Portuguese Fort S. 16° W.

(The bearings are Magnetic.)

This notice affects the following Admiralty Charts:—Bahrein Harbour Nos. 80 and 3380; and Persian Gulf (Western Sheet) No 2837b; also Persian Gulf Pilot, 1898, page 134, and Supplement, 1905, page 15.

AFRICA, SOUTH-EAST—PORT NATAL.

Cape St. Lucia—A new lighthouse established.

No. 501 (first publication).—The following Notice to Mariners is republished for general information:—

The Government of Natal gives notice that on the 15th December 1906, a new Lighthouse, showing a fixed bright light of the 4th order, will be established on a site about 1½ miles north of Cape St. Lucia (Zululand Coast).

The focal plane of the Light will be 388 feet above L. W. O. S. T.

The elevation of the base on which the tower stands is 363 feet above L. W. O. S. T.

The position of this tower is Latitude 28 deg 31 min., South, Longitude 32 deg. 24 min., East.

The tower is painted in black and white bands.

The light will be visible between the true bearings North 30 deg. East to South 30 deg. West or through the magnetic bearings North 52½ deg. East to South 52½ deg. West.

The light should be visible from a distance of about 15 nautical miles in clear weather, and it should be noted that as the light only shines through 180 degrees, it will be obscured between the bearings given above and the coast line.

The 29th December 1906.

AFRICA, EAST COAST—Delagoa bay.

Lorenzo Marques—Beacon light altered.

No. 1 (first publication).—With reference to Notice to Mariners, No. 343, dated 1st December 1902, issued by this office, the British Admiralty has given further notice (No. 1384 of 1906) that on 1st October 1906, the colour of the light (*fixed*) shown from the circular stone pillar on the edge of the mud flat extending from Lorenzo Marques, and situated at a distance of 5½ cables S. 36° E. from the harbour light, has been altered from green to show *red* over the port when bearing to the northward of about N. 30° W. (viz., a line passing through the position of the light-buoy off Reuben point), and *white* over the shore when bearing to the westward of that bearing.

CHINA SEA—TONG KING GULF.

Norway islands.—Intended alteration in light.

No. 7 (first publication).—The British Admiralty has given notice (No. 1417 of 1906) that it is intended shortly to alter the character of Norway islands light from white flashing every minute to *white flashing every five seconds.* The alterations, which would be commenced on November 1st, will probably take three months, during which period two *white fixed* vertical lights, visible from a distance of 12 miles in all directions, except from the northward, would be exhibited. These two lights, which will be masked in a northerly direction, will appear as a single light outside a radius of 9 miles; they must not, therefore, be mistaken for the *white fixed* light on Hondau.

Approximate position, lat. 20° 37½′ N., long. 107° 8¾′ E.

Further Notice will be given when this alteration has been made.

This notice affects the following Admiralty Charts:—Tong king gulf, No. 2062; Kua Lacht to Kao tao shan island, No. 1965; approaches to port Courbet, No. 1169; List of Lights, part VI., 1906, No. 737; Also, China Sea Directory, vol. II., 1906, page 468.

No. 18 (first publication).—With reference to Notice to Mariners No. 94, dated 9th March 1906, issued by this Office, the President of the Marine Board, Port Adelaide, has given further notice (No. 25 of 1906) informing Masters of vessels, Pilots and others that the Port Wakefield lights will be altered on the 19th November 1906, and will, on and after that date, show as mentioned hereunder:—

The present White Light on the end of the Wharf will be moved about three (3) feet westward, and be changed to a Red Light. The existing Red Light at the back will be changed to a bright light. These lights in line will lead midway between the two Outer Beacons instead of along the Eastern side of the channel, as at present.

This affects Admiralty Chart 2389b and Plan 2152.

AUSTRALIA, SOUTH.—Port Adelaide river

Outer harbour.—Signals to be observed at the Occulting buoy.

No. 13 (first publication).—The President of the Marine Board, Port Adelaide, has given notice (No. 27 of 1906) that Masters of Vessels, Pilots, and others about to enter the Port Adelaide river, shall, when at the Occulting Buoy, signal the dredgers by one prolonged blast of *30 seconds duration* on the whistle or syren, and repeat it every minute until such signal is answered from the dredgers. Vessels bound outwards shall give the same signal when abreast of No. 3 Light Beacon. Every dredger will repeat the above-mentioned signals if steam is up. If steam is not up then by waving a flag *by day* or a white light *by night*, and at the same time haul to one side of the fairway, and show the proper signals.

Masters and Pilots are cautioned to keep, as near as possible, on the line of leads so as not to pass the dredgers too close, and will also reduce speed when approaching and passing them.

This affects Admiralty Charts 2389*a* and *b*, and 1750 and 1752.

CHINA SEA—The Philippine islands—Luzon, east coast—Albay gulf.

Rapurapu strait—Beacons and buoys established.

No. 490 (second publication).—The British Admiralty has given notice (No. 1361 of 1906) that the undermentioned beacons and buoys have been established to facilitate the navigation of Rapurapu strait as follows :—

(*a*) Two beacons have been erected on Rapurapu island, the rear beacon being in the shape of a white triangle, point downwards, about 13 feet high, erected about 100 feet within the coast line, and the front beacon a white triangle, point upwards, erected on the edge of the reef 14 feet above high water, both beacons having a black vertical stripe passing through their centres.

These two beacons in line S. 6° W. lead through the channel eastward of Middle reef. They have been placed on the chart at distances of $2\frac{1}{8}$ miles and $2\frac{8}{10}$ miles S. 8° W. respectively from East point.

(*b*) A red conical buoy, marked No. 2, has been placed in a depth of 4 fathoms off the southern edge of Dickerson or Derickson reef, situated at a distance of $2\frac{8}{10}$ miles S. 28° W. from East point.

(*c*). A red conical buoy, marked No. 4, has been placed in a depth of 4 fathoms on the south-eastern edge of Columbia reef, situated at a distance of $4\frac{8}{10}$ miles S. 48° W. from East point.

CHINA SEA—NATUNA ISLANDS.

Devonport reef—Probable position.—Montrado (Menterado) breakers—Non-existence of.

No. 491 (second publication).—The British Admiralty has given notice (No. 1366 of 1906) that a search has been made for Devonport reef in approximately lat. 3° 54½′ N., long. 108° 31½′ E., without any indication of its existence being discovered.

It is thought probable that the ship *Devonport* was lost on the easternmost of the Penungul reefs, on which a depth of 2½ fathoms has been recently found to exist in approximately lat. 3° 52¾′ N., long. 108° 29′ E. From this position the bearing of Kamodi island (S.W. by W.) is the same as that given to fix the position of the Devonport; and if the second bearing (N.W.) given by the Devonport be applied to the summit of cape Senubing instead of Senua island, for which it may have been mistaken, it would place the vessel on the easternmost of the Penungul reefs, as already described.

The name of Devonport reef has therefore been transferred to the Eastern Penungul reef, the former Devonport reef being expunged.

Also, that a search for Montrado or Menterado breakers has also been made, but that no indication of its existence could be found, depths of from 40 to 50 fathoms being found over the position assigned to it. It has therefore been expunged from the charts.

Approximate position, lat. 3° 31′ N., long. 108° 4′ E.

(Variation 2° Easterly in 1906.)

This Notice affects the following Admiralty Charts:—China Sea, No. 2660a; Natuna islands, No. 1348: Also China Sea Directory, Vol. II, 1906, page 94.

2. The income of the year amounted to Rs. 2,23,380 as against Rs. 1,90,977 and the expenditure to Rs. 1,77,777 against Rs. 2,25,413 in the previous year, leaving a surplus of Rs. 45,603 as compared with a deficit of Rs. 34,436 in 1904-05. These figures exclude the advance of Rs. 34,436 made in 1904-05 from the Bridge Reserve Fund to Revenue Account to meet the deficit which occurred in that year and which has been repaid in 1905-06. During the year under review there is a decrease of Rs. 4,595 in the outlay under Stores which is accounted for by the fact that in 1904-05, the ferry steamers were new and many articles of a miscellaneous character had to be issued in order to complete their equipment. The decrease in expenditure on repairs is owing partly to the fact that a large sum had to be spent in 1904-05 in repairing the ferry steamers which met with accidents. The outlay in 1904-05 had also been unduly inflated by payments for work done in 1903-04.

3. The bridge was opened for the passage of vessels on 155 occasions during the year under review, of which 103 were on the ordinary fixed days of the week (Tuesdays and Fridays), and 52 were on Sundays, on special application. The number of vessels which passed through the bridge was the highest on record, the increase being in inland vessels, flats and tugs. The following statement shows the numbers that have passed through since 1895-96:—

	1905-1906.	1904-1905.	1903-1904.	1902-1903.	1901-1902.	1900-1901.	1899-1900.	1898-1899.	1897-1898.	1896-1897.	1895-1896.

4. One sea-going vessel collided with the bridge during the year under review and the total number of accidents in the year was 28 as compared with 34, 67, 59, 135 and 233 in the preceding five years. The accidents to cargo and passenger boats were 21 as against 31 in 1904-05. In one accident the steam launch "Noor" was lost and one of her crew drowned and in other accidents seven boats were lost.

By order of the Lieutenant-Governor of Bengal,

RESOLUTION REVIEWING THE REPORTS ON THE WORKING OF MUNICIPALITIES IN BENGAL (EXCEPT CALCUTTA) DURING THE YEAR 1905-06

MUNICIPAL] DEPARTMENT—MUNICIPAL.

Calcutta, the 28th December 1906.

RESOLUTION—No. 2469M.

READ—

The Reports from the Commissioners of Divisions on the working of Municipalities in Bengal (except Calcutta) during the year 1905-06.

READ again—

The Resolution reviewing the Divisional Commissioners' Reports on the working of Municipalities during the year 1904-05.

One new Municipality was created during the year 1905-06, viz., at Katihar, in the district of Purnea. The Sambalpur Municipality was transferred to Bengal from the Central Provinces, while 35 Municipalities were transferred to the jurisdiction of the new Province of Eastern Bengal and Assam. The present Resolution therefore deals with the statistics of 128 Municipalities, and compares them with the statistics of 126 Municipalities of the previous year.

2. *Collections.*—The high standard of collections noticed in the last Resolution was maintained during the year under review. Although, owing to the steady reduction of realisable arrears, the percentage of total collections on current demand fell from 97·4 to 96·4, the percentage of current collections on current demand rose from 93·0 to 93·7, the lowest percentage, viz., 92·5, being attained in the Patna Division. The percentage of total remissions on current demand fell in the aggregate from 4·6 to 4·2, the highest figure being returned from the Bhagalpur Division where it rose from 3·6 in 1904-05 to 7·3. The increase in that Division is mainly due to the large remissions allowed at Monghyr and Bhagalpur, owing it is said to the prevalence of plague in those places. In the Burdwan Division the remissions fell from 8·5 per cent. to 5·7 per cent. With an increase of Rs. 1,17,840 in the current demand, and a falling off in the total remissions, the total outstanding balance at the close of the year for all the municipalities was reduced from Rs. 1,98,929 in 1904-1905 to Rs. 1,78,944. Thirteen Municipalities collected cent. per cent. on the current demand or more, whilst in 19 there was either no outstanding balance or a balance of less than Rs. 10 only. Both these results were obtained in the Municipalities of North Dum-Dum and Garulia. The Daudnagar Municipality realised 112·2 per cent. of its current demand, and with a remission of ·1 per cent. on the demand had an outstanding balance of only Rs. 12.

3. *Number of Rate-payers.*—The total number of rate-payers was 407,961, and the percentage to population 17·3 against 17·2 in 1904-1905. As in the previous year, the percentage was highest at Katwa (30·8) and lowest (7·3) in the Municipality of Titagarh where there is a large migratory population of mill-hands.

4. *Results of Elections held during the year.*—General elections were held during the year in 40 Municipalities. In one of the wards of the Sasaram Municipality, where the elections were contested, all the persons qualified to vote were present at the poll and recorded their votes. In the other contested elections the attendance of voters ranged between 83·7 per cent. in a ward of the Vishnupur Municipality and 1·2 in one of the wards of the Jagadispur Municipality. The elections failed in certain wards of four Municipalities only—Arrah, Hajipur, Cuttack and Hazaribagh.

5. *Constitution of Committees and attendance at Meetings.*—The total number of Commissioners was 1,745 against 1,718 in the previous year, the increase being due to the creation of the Katihar Municipality and to the transfer to Bengal of the Sambalpur Municipality. The number of meetings held

was 2,138, of which 177 were adjourned; against 2,189 meetings held in 1904-05, of which 153 were adjourned. The Cossipore-Chitpur and Kalna Municipalities held the largest number of meetings (49). Thirteen Municipalities failed to hold one meeting a month, and at Jamalpur and Chaibassa only 7 meetings were held. The average attendance at meetings was practically the same as in the previous year, though the number of Municipalities in which it amounted to one-half rose from 89 to 93. The average attendance was highest in the new Municipality of Katihar (81·8), and exceeded three-fourths of the number of Commissioners at Asansol and Bihar. The lowest figure is returned from Giridih where the average attendance was only 27·0 per. cent.

6. *Assessment and Taxation.*—The rate on holdings was levied in the new Municipality of Katihar from the beginning of the current year. This method of taxation was substituted for the alternative tax on persons in the Municipalities of Purulia, Cuttack, Garulia, Bhatpara and Kotrung, and is now in force in 49 Municipalities and in certain wards of the Bhadreswar, South Dum-Dum, Deoghur, Bettiah and Darbhanga Municipalities, the tax on persons being levied elsewhere. There are now therefore only six Municipalities with a population exceeding 20,000, viz., Bankura, Berhampore, Bihar, Arrah, Sasaram and Balasore, in which the tax on persons continues to be levied. During the year an effort was made to introduce the rate on holdings in all the wards of the Darbhanga Municipality, but it is reported that the experimental valuation which was made showed that its general introduction would entail a loss of income. The Commissioner of the Division is not, however, convinced that the system of taxing persons, which is liable to error, as opposed to the tax on actual visible property, is suited to rising towns like Arrah and Darbhanga, and he has promised to examine the matter further. The change seems desirable at Arrah where both the water and the latrine rates are in force and are levied on the annual value of holdings. The latrine rate was levied in 88 towns, the water rate in 13, and the lighting rate in 2. The levy of a lighting rate which was sanctioned in the previous year could not be enforced during the year at Maniktala and Cossipore-Chitpur. In 16 towns the rate on holdings was levied at less than the maximum, but the gradual rise in the average incidence of taxation per head of population, which was noticed in the last Resolution, was maintained during the year, the figures showing an increase of ten pies. The highest incidence of taxation (Rs. 8-5-10) was attained in the hill municipality of Darjeeling. Among the Municipalities in the plains, Sambalpur returned the highest figure, viz., Rs. 3-12-7, and Ramjibanpur, in the district of Midnapore, the lowest, annas 4-3. In 20 other towns the incidence of taxation was less than eight annas per head.

7. *Revision of Assessment.*—General or partial revisions of assessment were made in several Municipalities during the year. The revision of assessments at Howrah resulted in a total increase of Rs. 20,171 in the demand for the house, lighting, latrine and water rates. The assessments were revised by paid assessors in several Municipalities, and the results were on the whole fairly satisfactory; but in Baduria the good result achieved by the assessor was, it is reported, rendered futile by the interference of the appellate committee, by whom the increase of 21·4 per cent. was reduced to 8·1 per cent. A considerable increase of income was obtained in the following towns:—

Name of Municipality.	Amount of increase.
	Rs.
Maniktala	11,635
Monghyr	9,739
Bhatpara	8,564
Cossipore-Chitpur	4,570
Purulia	4,509
Naihati	3,502
Patna	3,137

8. *Fresh imposts levied during the year.*—The tax on carriages and on animals was introduced at Kotrang, Santipur and Ranaghat; and the market regulations under Part X of the Municipal Act were enforced in the Municipalities of Vishnupur and Baraset, and in Ward IV of the Halishahar Municipality. License fees were for the first time levied on the storage of kerosine oil and on tanneries in Bankura, on dealers in kerosine oil at

Baruipur, and on meat shops at Titagarh. The provisions of Part IX of the Act were enforced at Azimganj and Sitamarhi, in the added area of the Garden Reach Municipality, and in certain selected parts of the Kishenganj, Motihari and Darbhanga Municipalities.

9. *Income and Expenditure.*—The total income of the Municipalities, including the opening balance, was Rs. 57,25,680, or an increase of Rs. 1,95,236 over that of the previous year. The total expenditure was Rs. 47,83,368 against Rs. 47,78,202 in 1904-1905.

10. *Closing balances of Municipalities.*—The aggregate closing balances rose from Rs. 7,52,242 in the preceding year to Rs. 9,42,312. The inclusion of unspent loans or grants from Government accounts for the comparatively large balances shown in some towns, as in Maniktala (Rs. 1,23,615), Bhagalpur (Rs. 68,749) and Titagarh (Rs. 35,263).

Most municipalities maintained a sufficient closing balance; but at Meherpur the closing balance is shown as only Rs. 196, at Debhatta only Rs. 33 were reserved to form the balance, and at Buxar only Rs. 19. The attention of the Divisional Commissioners is invited to these cases.

11. *Income (Rs. 49,67,128).*—The steady growth of Municipal income referred to in the last Resolution continued during the year. Excluding the income of the newly added municipality of Sambalpur (Rs. 60,702), there was an improvement of Rs. 1,31,153, accompanied by a large decrease of Rs. 1,61,965 under "Extraordinary and Debt." The net increase was thus Rs. 2,93,118, or 6 per cent., of which about a lakh accrued under Municipal rates and taxes. The general increase was shared by all the Divisions, but as might be expected it was largest in the Presidency Division where it amounted to Rs. 1,64,332.

12. *Octroi Tax (Rs. 47,417).*—This tax is levied only in the Sambalpur Municipality, which has been recently transferred to this Province. The gross income from this source shows an increase of Rs. 5,805, whilst the net income after the payment of refunds amounted to Rs. 27,901 against Rs. 25,659 in 1904-1905.

13. *Tax on Houses and Lands (Rs. 11,72,795).*—The revenue from this source increased by Rs. 63,768. The tax is not levied in Sambalpur, nor was it levied during the year at Katihar; and the increase is due mainly to the substitution of this form of taxation for the tax on persons in the five Municipalities mentioned in paragraph 6 above. The Municipalities in which the increase under this head was most marked as compared with the previous year were Cossipore-Chitpur (Rs. 3,416) and Maniktala (Rs. 4,787), these results being due to revision of assessment. On the other hand there was a falling off at Monghyr (Rs. 3,467) and Bhagalpur (Rs. 2,917), ascribed to the prevalence of plague. The increase at Sahebganj (Rs. 4,207) was due to the payment of arrears by the East Indian Railway Company, and similarly the apparent decline of Rs. 10,667 at Bally was due to the fact that in the previous year large arrears had been collected from the Company.

14. *Tax on Animals and Vehicles (Rs. 2,24,073).*—The receipts under this head rose by Rs. 2,475, the largest increase occurring in the Municipality of Kishanganj where it rose from Rs. 611 in 1904-1905 to Rs. 3,144. No explanation has been given of this remarkable increase, but the Commissioner considers that it is probably due to the appointment of a special staff for the realization of fees from outside carts and ponies habitually plying within Municipal limits. The Commissioner will be asked to satisfy himself that the tax is being properly administered in this Municipality without undue hardship to persons whose carts only occasionally visit the Municipality. There were also marked increases in the Municipalities of Cuttack (Rs. 1,480) and Barasat (Rs. 1,132), whilst there was a falling off (Rs. 1,107) at Darbhanga. Inspecting officers should continue to see that the law on the subject of the registration of carts is not oppressively exercised by Municipalities.

15. *Tax on Professions and Trades (Rs. 53,954).*—The income from this minor item of Municipal revenue declined by Rs. 1,020 as compared with the previous year. The tax was levied in all the Municipalities, except four, viz., Debhatta, Kurseong, Jhalda and Raghunathpur.

16. *Tolls on Roads and at Ferries* (*Rs. 93,428*).—Excluding the income from this head in the Sambalpur Municipality (Rs. 2,485), the revenue shows an aggregate decline of Rs. 4,056. Tolls on roads are levied only in the Municipality of Sambalpur. The decrease in the income from ferries occurred mostly in the Municipalities of Patna (Rs. 5,665), Muzaffarpur (Rs. 3,408) and Burdwan (Rs. 1,701). The decline at Patna was due to a concession having been granted to the Bengal and North-Western Railway Company to run a ferry service for the convenience of the passengers travelling by that line, whilst at Muzaffarpur heavy floods interfered with the traffic. The resettlement of ferries at lower rates accounts for the decline at Burdwan.

17. *Water-rate* (*Rs. 2,98,646*).—The total revenue shows an increase of Rs. 31,868. There were marked increases at Howrah (Rs. 2,576), Maniktala (Rs. 2,140) and Arrah (Rs. 4,011). Better collections at Howrah and a revision of assessment at Maniktala account for the improvements in those places. The increase at Arrah is not accounted for. A decrease of Rs. 1,756 at Bhagalpur was due to the prevalence of plague in that town.

18. *Lighting-rate* (*Rs. 94,244*).—This rate was levied only in two towns, viz., Howrah and Darjeeling, as in the previous year, and yielded an increase of Rs. 6,936, of which Rs. 6,084 occurred in Darjeeling. This was due to the extension of electric connections with private buildings.

19. *Conservancy, including Scavenging and Latrine-rate* (*Rs. 7,08,870*).—There was an improvement of revenue of Rs. 43,840, which was shared more or less by all the Divisions except Bhagalpur, the largest increase occurring in the Municipalities of Howrah (Rs. 12,268) and Cossipore-Chitpur (Rs. 7,453). The general increase is ascribed to the enforcement of the tax in new areas and on new and improved holdings, and also to better collections; but it is a matter for regret that no progress has been made by Municipalities in rendering their systems of sewage disposal remunerative, and that only in the Cossipore-Chitpur Municipality was any revenue derived from the trenching grounds.

20. *Tax on Persons according to their circumstances and property* (*Rs. 3,89,112*).—There was a decrease in the revenue of Rs. 43,137, due to the substitution in five Municipalities of the tax on holdings for this form of taxation. The total revenues under these two heads shows an improvement of Rs. 20,631 as compared with the previous year.

21. *Grants from Provincial and Local Funds, and contributions from Private Individuals* (*Rs. 4,21,090*).—The increase of Rs. 29,600 is accounted for by larger grants from Government for general purposes, and from local funds for medical purposes. The total contributions for general purposes amounted to Rs. 1,51,906, for education to Rs. 9,562, and for medical to Rs. 2,59,622.

22. *Gifts, etc., by Private Individuals.*—Many instances of private liberality are brought to notice in the reports of the Commissioners, which have already been acknowledged in a separate Resolution. The most prominent of the public benefactors during the year were Rai Sitab Chand Nahar Bahadur, who contributed Rs. 7,000 towards the cost of works for the protection of the town of Azimganj from the Bhagirathi river; Babu Lal Dhari Singh and his brother, zamindars of Dinapore, who contributed Rs. 5,000 for the construction of a building for the Dinapore Charitable Dispensary; and Mr. Solano of Arwal who contributed Rs. 4,500 for the construction of an infectious diseases ward in the Gaya Cholera Hospital.

23. *Expenditure.*—The aggregate expenditure of the Municipalities in Bengal amounted to Rs. 47,83,368, against Rs. 47,78,202 in 1904-05. The ordinary expenditure (*i.e.*, excluding repayment of loans, advances, deposits, etc.), which amounted to Rs. 39,48,665, shows a slight falling off.

24. *Office and Collection Establishment* (*Rs. 3,66,044*).—Excluding the Sambalpur Municipality, the aggregate expenditure on this account shows a small increase of Rs. 3,817, and as in the previous year represented about one-tenth of the total ordinary expenditure. The expenditure rose in the Orissa Division from 9·9 per cent. of the total expenditure to 11·2 per cent., and in the other Divisions the percentage was practically stationary. The highest percentage (24·9) was incurred in the small Municipality of Debhatta in the 24-Parganas, and the lowest 4·3 in the Sitamarhi Municipality.

25. *Prevention of Fire* (*Rs. 25,712*).—Of the total expenditure under this head, Rs. 24,500 is contributed by the four Municipalities of Howrah, Cossipore-

Chitpur, Maniktala and Garden Reach, this sum representing their contribution to the up-keep of the Metropolitan Fire-Brigade. The charges in the rest of the Province were trifling. Towards the close of the year, the Commissioners of the Darjeeling Municipality organized a fire-brigade at a cost of Rs. 21,444, one-half of which was paid by Government.

26. *Lighting* (*Rs. 2,46,145*).—The total expenditure shows a decrease of Rs. 41,836, which is accounted for by a reduction of Rs. 49,510 in the capital expenditure on the electric installation at Darjeeling. In the Howrah Municipality the expenditure rose by Rs. 5,702, owing to the payment of arrears due to the Gas Company. In the rest of the Province the charge was almost stationary.

27. *Water-supply* (*Rs. 2,48,049*).—The Sanitary Board have reported generally that the management of the Water-works in those Municipalities which maintain complete installations has been satisfactory. In Howrah, the high level of efficiency which has always been noticeable was maintained, the daily average quantity of filtered water delivered from the Water-works having increased from 1,724,000 gallons to 1,923,000 gallons. The number of house connections is now 3,796, and the total length of the distribution pipes has been increased by 2,459 feet. The management of the Burdwan Water-works was also efficient, and the Commissioner reports that the members of the Water-works Sub-Committee take great interest in the works. Out of a population of 38,000, only 18,000 are at present supplied with pipe-water, the daily consumption being 10·52 gallons per head. At Arrah, in spite of the difficulties arising from the recession of the river from the intake, a constant supply of water was maintained throughout the year. The management of the Water-works at Berhampore shows some improvement. The supply of water was well maintained, the average daily supply per head being a little under 8 gallons. The expenditure on account of maintenance and capital charges exceeded by Rs. 4,804 the revenue derived from the water-rate, although this is levied at the maximum rate, and the total deficit up to date is about Rs. 15,000. The assertion that the introduction of a filtered water-supply has produced no effect on the mortality of the town, is one that should be carefully examined by the Sanitary Commissioner. The difficulties attending the management of the Bhagalpur Water-works still exist. It has now been decided, after exhaustive enquiries by the Engineering and Sanitary advisers of Government, to replace the existing pumping plant by Diesel oil engines, and to carry out other improvements, which will it is hoped secure a constant and adequate supply of filtered water at all times of the year. Government has made a large grant towards the cost of these improvements. The hill towns of Darjeeling and Kurseong are fortunate in being able to secure supplies of comparatively pure water from springs in the locality. As however it is impossible efficiently to guard the catchment area from all chances of pollution, it is essential that the supply should be filtered, and it has now been decided that the existing settling tanks at Darjeeling should be converted into filters and that arrangements are to be made for the filtration of the water-supply at Kurseong. A small installation after the Faridpur pattern for the improvement of the water-supply has been completed at Khulna, and at Jessore and Gaya more ambitious projects are at present under consideration.

28. *Drainage* (*Rs. 1,60,065*).—There was a decrease of Rs. 10,851 in the expenditure, which is accounted for by a fall of Rs. 14,917 under capital expenditure. At Howrah, the execution of Block II of the Sibpur Drainage scheme was completed during the year, and the construction of drains for the Southern Foreshore area was commenced. A scheme for the surface drainage of the Northern Foreshore section, at an estimated cost of about 1½ lakhs, is also under the consideration of the Commissioners. Towards the close of the year a scheme for the drainage of the Titagarh Municipality, at an estimated cost of Rs. 39,411, was sanctioned by Government. To meet the cost of this project, the Commissioners have taken a loan of Rs. 55,000, which will be supplemented by a contribution of Rs. 15,000 from the local mills, the balance of Rs. 10,000 being met by a grant from Government. A comprehensive scheme for the drainage of the Cossipore-Chitpur Municipality was submitted during the year, and is now being revised under

the instructions of Government. The question of the drainage of Puri has long been under the consideration of Government, and during the year a Committee was appointed, with the Commissioner of the Orissa Division as President, to consider the scheme prepared by the Sanitary Board for the improvement of the drainage of that town. The Committee submitted its report, in which the probable cost of the works to be taken up at once was estimated at Rs. 1,70,000. The scheme as modified by the Committee has received administrative approval, and Government has undertaken to assist the Municipality in carrying it out The detailed plans and estimates are now under preparation. The creation of the appointment of an Assistant Sanitary Engineer to supervise the preparation of schemes for drainage and water-supply has received the sanction of the Secretary of State, and it is hoped that Municipalities will derive much benefit from the advice and assistance of this officer. It is of the greatest importance that, before incurring expenditure on the preparation of such schemes, the Municipal authorities should consult the sanitary advisers of Government, as past experience has shown that great waste of time and money may occur in the preparation of unsuitable and ill-considered projects.

29. *Conservancy, including Road-cleaning and Road-watering and Latrines (Rs. 11,79,206).*—The expenditure on this important municipal service rose in all the Divisions. The increase was marked in the Burdwan, Presidency and Patna Divisions, where it amounted to Rs. 36,502, Rs. 14,797 and Rs. 11,921, respectively. The Municipality of Howrah spent Rs. 35.170 on the strengthening of the conservancy establishment and the purchase of carts and wheel-barrows. There has been no extension of the bacteriological method of night-soil disposal, and the only Municipalities in which septic tanks maintained by the Commissioners are at present in use are Howrah and Muzaffarpur. It is reported that the four biological filters established in the former Municipality for the disposal of liquid sewage continued to work satisfactorily. The important hill station of Darjeeling is one in which the advantages of a system of septic tanks for the disposal of sewage should be very great. Such a scheme has now been prepared by Captain Clemesha, late Officiating Sanitary Commissioner, and will it is anticipated be adopted by the Municipality. At Howrah, the work of opening out insanitary *bustees* was pushed on vigorously, and additional surveyors were employed to prepare the necessary plans. In his report for 1905, the Sanitary Commissioner writes that the conservancy arrangements in Municipalities are also gradually improving. Old insanitary latrines are being replaced by new ones of better type, in many places glazed stone-ware latrine seats are being brought into use, and almost all the Municipalities now use proper trenching grounds.

30. *Hospitals and Dispensaries (Rs. 4,24,962).*—The expenditure shows an increase of Rs. 70,081. Deducting the contributions from Government and other sources, and the interest on investments for Medical purposes, as also the income from "fees and revenue from Medical institutions," the total net expenditure on hospitals and dispensaries and plague charges amounted to Rs. 2,21,650, or about 4·2 per cent. of the total Municipal revenue of the year. According to the annual Dispensary Report for the calendar year 1905 the net grant from Municipal funds was Rs. 1,89,696. This amount evidently excludes the charges on account of plague incurred by the Municipalities.

31. *Vaccination (Rs. 19,198).*—The expenditure shows a slight increase. Deducting from the total number of births registered the number of children under one year who died during the year, the total number of children under one year available for vaccination was 46,094, of whom 43,292 or about 94 per cent. were successfully vaccinated.

32. *Markets and Slaughter-houses (Rs. 60,693).*—The expenditure rose by Rs. 20,428 as compared with the previous year. The increase occurred in the Patna (Rs. 14,821) and Orissa (Rs. 13,134) Divisions. The construction of new markets at Chapra and Sitamarhi accounts for the increase in the former Division; and in the latter the Puri Municipality acquired lands for a Municipal market and put up some *kutcha* shops. The plan for a new market in the Patna Municipality has been approved, and the work will be taken in hand

during the current year. The necessity for preventing the spread of disease through the public food-supply received continued attention during the year.

33. *Public Works (Rs. 6,38,318).*—The expenditure on public works shows a decrease of Rs. 2,09,185, which is more than accounted for by the contribution of 2½ lakhs of rupees made by the Howrah Municipality in 1904-1905 to the East Indian Railway Company for strengthening a bridge.

34. *Public Instruction (Rs. 1,31,907).*—The expenditure on education increased by Rs. 12,321. The total expenditure on primary education rose from Rs. 65,987 to Rs. 73,929, which represents 3·0 per cent. of the ordinary income of the Municipalities against 2·8 in the previous year. The percentage was highest in the Orissa Division (3·68) and lowest in the Burdwan Division (2·3) as in the previous year. The prescribed standard of 3·2 per cent. is fairly approximated in the aggregate, but it was largely exceeded in many of the small towns, rising as high as 48·7 per cent. in Khulna where large expenditure was incurred on primary school buildings. At Ranjibanpur, in the Midnapore District, the percentage stood at 10·4.

35. *Loans.*—Thirty-one Municipalities were in debt at the close of the year; and if the sum of Rs. 1,57,093 on account of the accumulated balances of the sinking funds of the Burdwan, Howrah and Bhagalpur Municipalities for the repayment of their debenture loans is excluded, the total net indebtedness amounted to Rs. 34,60,414. Of this sum, the loan liabilities of the Howrah Municipality alone account for Rs. 18,94,790. Nine new loans were granted during the year, aggregating Rs. 3,81,000, of which Howrah drew Rs. 1,00,000 for drainage purposes, and Rs. 60,000 and Rs. 50,000 for an additional filtered water reservoir and for the extension of the water-works in that town. For the extension or improvement of water-supply, Maniktala received Rs. 1,00,000, South Barrackpore Rs. 4,000, Khulna Rs. 8,000, Berhampore Rs. 6,000 and Darjeeling Rs. 33,000. Titagarh received Rs. 20,000, being the first instalment of a loan of Rs. 55,000 for drainage works.

On the 31st March 1906, the total outstanding liabilities of all the Municipalities on account of unpaid bills and unfinished works stood at Rs. 1,51,101, which is more than 16 per cent. of the closing balances and 5 per cent. of the current demand. In four Municipalities the liabilities exceeded the closing balances, and in six they exceeded 15 per cent. of the current demand. More attention should be paid to the prompt payment of all liabilities as they fall due.

The Municipalities in debt to Government paid the interest and instalments of their loans in full, with two exceptions. The Commissioners of the South Suburban Municipality were unable to levy the water-rate, owing to the insufficiency of the water supplied from the Calcutta mains, and were therefore allowed to postpone the repayment of the principal. Arrangements are being made to increase the supply of water, when the full amount of water-rate will be levied and the Municipality will be in a position to pay the instalments of the loan as these fall due. At Utterpara, owing to delay in obtaining sanction to its drainage scheme, the Municipality was unable to utilize the loan that was granted for the purpose, and was allowed to defer payment of the instalments until the scheme was finally sanctioned. The financial embarrassments of the Berhampore Municipality, which were described at length in the last Resolution, continued during the year under review; but an improvement is expected with an increased assessment and greater economy. The Commissioner of the Bhagalpur Division reports that the Darjeeling Municipality incurred heavy charges in disregard of the sanctioned budget, and that, if this irregularity were to continue, the Municipality might any day find itself unable to pay its way. A separate enquiry is being made in the matter, but there is no apprehension as to the solvency of the Municipality, since the rate on holdings was levied only at 7 per cent. on their value against the legal maximum of 10 per cent.

36. *Audit of Accounts and Embezzlements.*—Only three cases of embezzlement were reported during the year. They do not call for special notice.

37. *Working of the Porters and Dandiwallas Act.*—This Act was in force in the Municipalities of Darjeeling and Kurseong. There was a large increase in the number of porters and *dandiwallas* registered in Darjeeling. There was

however only one prosecution against 40 in the previous year. At Kurseong there were 4 prosecutions. No licenses were cancelled during the year in either town.

38. It is usual in this Resolution to take special notice of the administration of the Howrah Municipality. The high standard of efficiency recorded in past years has been satisfactorily maintained, the Collection Department in particular having continued to work well. The percentage of the total collections to the current demand is practically the same as that of the previous year, the slight drop from 97·8 to 97·5 being due to a decrease in the arrear collections. The outstanding balance has been reduced from Rs. 24,539 in 1904-1905 to Rs. 9,090, nearly half of which consists of arrears for 1905-1906. Out of a total demand of Rs. 5,89,000, Rs. 5,51,000 was collected, the percentage being 93 5 as compared with 87·6 in the previous year. It is especially satisfactory to observe that the income from fines fell from Rs. 16,300 to Rs. 8,800. The Chairman reports that in former years the procedure preliminary to prosecution gave opportunities for black-mail and oppression by subordinates, and that in many cases the fines inflicted were so excessive as to weigh heavily on the persons fined. To remedy the discontent caused among the rate-payers by this state of affairs, the Commissioners have decided that no prosecution shall be instituted without full enquiry by an officer of superior rank. Arrangements have also been made to have such cases tried by Honorary Magistrates. Of all the branches of the administration perhaps the most noticeable for its efficiency is the Water-works. The Sanitary Board have expressed their appreciation of the careful manner in which these have been looked after, and their high state of efficiency. During the year the construction works of Block II of the Sibpur Drainage scheme were entirely completed. The Sanitary Engineer frequently inspected the works, and has stated in his final report that the work appears to have been exceedingly well and carefully carried out. Detailed plans and estimates for the construction of *pucca* drains in Block IV of the South Foreshore scheme were prepared during the year, and received the sanction of Government after its close. Schemes for the drainage of the Northern Foreshore section of the town and for the Central section are at present under the consideration of the Commissioners, and when these portions are ready the whole project will be complete. With the completion of the drainage system and the ultimate connecting up of all the houses of the town with the *pucca* drains, a steady improvement in the sanitary condition of the town can confidently be expected.

39. There is little to add to the foregoing detailed account of the results of Municipal administration in Bengal during the past year. It is beyond doubt that the public interest in Municipal administration is maintained, if it is not actually on the increase. The tax-payers are discovering that they must themselves be mainly responsible for the condition of the towns in which they reside, and that without their co-operation and assistance efficient administration is an impossibility. Government can advise and assist the Municipalities both through the local officers and by the advice of the experts employed under it; but it is with the people themselves, the general body of rate-payers and their representatives, that the responsibility for the success or failure of Municipal administration must ultimately rest. Although it is to be regretted that, more particularly in the smaller Municipalities near Calcutta, the representation on the Board of Commissioners and the control of the administration is at times made a matter of party strife, it is still far better that this should be the case than that the rate-payers should regard the question with indifference. That they do not do so is proved by the steady and sustained improvement in the administration which has taken place.

In conclusion, the Lieutenant-Governor again desires to congratulate the Municipalities on the good work that has been accomplished, and to express his appreciation of the public spirit displayed by the many gentlemen who have as Municipal Commissioners devoted their time and labour to the service of the public.

By order of the Lieutenant-Governor of Bengal,

H. J. McINTOSH,

Offg. Secretary to the Govt. of Bengal.

† The Government grant of Rs. 2,796 for payment of instalment of arrear interest on the loan of Rs. 20,000 on account of the water-supply scheme has not been included in this statement as the transaction of the amount took place on the 3rd April 1906.

‡ Out of the amount of Rs. 10,000 paid from the Alipur Treasury in silver coins, Rs. 44 were found old and counterfeit, and could not be changed before the 31st March 1906, hence excluded from the account.

General Summary.—Moderate rainfall is reported from Sambalpur and Palamau, and a slight fall from Cuttack. Harvesting of winter rice is nearly finished. Sugarcane-pressing continues. *Rabi* crops are doing well. But rain is still needed for them in the Patna Division, and also in parts of the Hooghly, Bhagalpur, Purnea, Palamau, and Singhbhum districts. The number of persons receiving gratuitous relief is—Muzaffarpur 1,608 and Darbhanga 19,453. The number of persons on test and relief works in Darbhanga is 585 and 48,381, respectively. Cattle-disease exists in nine districts. Small-pox and cholera prevail in the Katwa subdivision of Burdwan, and the latter disease continues in Jessore. The price of common rice has risen in ten and fallen in five districts.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the New Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the Dine's pressure tube anemometer and the standard dial anemometer.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

The wind velocity reported on any day is for 24 hours preceding 8 A.M. of that day.

LAND SALE NOTICES.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Railway, in the district of Monghyr, will be put up to sale at 12 o'clock on the 31st January 1907, corresponding to the 2nd Falgoon of 1314 Fusli, at Serari.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the lands closer than 3 feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court a third for the Bombay High Court, and a fourth for the Allahabad High Court

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively

Persons desiring to subscribe for or purchase the Reports should apply to

the Officer in charge Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad

BILL

further to amend the Chota Nagpur Landlord and Tenant Procedure Act and the Chota Nagpur Commutation Act, 1897.

WHEREAS it is expedient further to amend the Chota Nagpur Landlord and Tenant Procedure Act and the Chota Nagpur Commutation Act, 1897, in manner hereinafter appearing; Ben. Acts I of 1879 and IV of 1897.

And whereas the previous sanction of the Governor General has been obtained, under section 5 of the Indian Councils Act, 1892, to the provisions of this Act which affect Acts passed by the Governor General of India in Council; 55 & 56 Vict., c. 14.

It is hereby enacted as follows:—

Part I.—Preliminary.

Short title

1. This Act may be called the Chota Nagpur Tenancy (Amendment) Act, 1907.

Part II.—Amendment of the Chota Nagpur Landlord and Tenant Procedure Act.

Definition.

2. The words "the said Act," as used in this Part, mean the Chota Nagpur Landlord and Tenant Procedure Act, as amended by the Chota Nagpur Tenancy (Amendment) Act, 1903. Ben. Act I of 1879. Ben. Act V of 1903.

Insertion of clause (*dd*) in section 2.

3. After clause (*d*) of section 2 of the said Act the following shall be inserted, namely:—

"(*dd*) 'korkar' includes land which has been artificially levelled primarily for the cultivation of rice and (*i*) which previously was jungle, waste or uncultivated, or was cultivated upland, or the cultivation of which was abandoned, and (*ii*) which has been prepared for cultivation by a cultivator (other than the landlord), or by his predecessor in interest (other than the landlord), with the oral or written consent of the landlord:

Provided that such consent shall not be required—

(i) where the land before levelling was included in the cultivator's tenancy, or

(ii) where land other than majhihas or bethkheta in any village is entered in the register prepared under section 5 of the Chota Nagpur Tenures Act, 1869, or is entered as a Mundari khunt-kattidari tenancy in a record-of-rights finally published under Chapter X of the Bengal Tenancy Act, 1885, or any other law for the time being in force, and any land in such village is made into korkar as aforesaid by a member of a Bhuinhari or Mundari khunt-kattidari family of the village: Ben. Act II of 1869. VIII of 1885.

Provided also that such consent, where required, shall be deemed to have been given if the landlord has not instituted a suit against the tenant, within one year from the date on which he commenced to prepare the korkar, to restrain him from so preparing it";

Insertion of clause (*q*) in section 2.

4. After clause (*p*) of section 2 of the said Act the following shall be inserted, namely:—

"and

(*q*) in any locality in which a survey and record-of-rights have been made under any law for the time being in force, 'village' means an area included within the same exterior boundary in the village map prepared in the course of making such survey and record." [*Cf.* VIII of 1885, s. 3 (*20*).]

The Chota Nagpur Tenancy (Amendment) Bill, 1907.
(Clauses 5-8.)

Amendment of section 10B.

5. (*1*) In sub-section (*1*) of section 10B of the said Act, for the words "exceeding five years" the words "expressed or implied which might in any possible event exceed five years" shall be substituted.

(*2*) To the same section the following shall be added, namely:—

"(*6*) The foregoing sub-sections shall apply also to the holders of tenures which are entered in the register prepared under section 5 of the Chota Nagpur Tenures Act, 1869, and to tenures so entered, as if they were raiyats and holdings respectively." Ben. Act II of 1869.

Amendment of section 13.

6. (*1*) In the first paragraph of section 13 of the said Act,—

(*a*) after the word "payable" the words "or by postal money-order in such form as the Local Government may by rule prescribe," shall be inserted, and

(*b*) after the words "deposit such amount" the words "by postal order in such form as the Local Government may by rule prescribe, or by any other means," shall be inserted.

(*2*) In the second paragraph of the same section, after the words "A deposit may" the word "also" shall be inserted.

(*3*) At the end of the same section the following shall be added, namely:—

"When any deposit has been made in the Court of the Deputy Commissioner under this section, it shall be presumed, until the contrary is proved, that the deposit has been lawfully made."

Amendment of section 14

7. In section 14 of the said Act, for the words "seven days" the words "one month" shall be substituted.

New sections 24A to 24C.

8. After section 24 of the said Act the following shall be inserted, namely:—

"24A. The word 'enhancement,' as used in sections 18 to 24, shall be deemed not to include an increase of rent in respect of land held by a tenure-holder, raiyat or under-raiyat in excess of the area for which rent has been previously paid by him.

Meaning of "enhancement."

"24B. (*1*) No increase shall be made to the rent payable by any tenure-holder, raiyat or under-raiyat, in respect of land held by him in excess of the area for which rent has been previously paid by him, except by order of the Deputy Commissioner passed on an application made to him by the landlord. [*Cf.* Ben. Act I of 1879, ss. 21, 22, 23.]

Application for increase of rent in respect of land held in excess of the area for which rent was previously paid.

(*2*) Every such application must specify—

(*a*) the present rent of the tenant,

(*b*) the area and description of the land for which the said rent is payable,

(*c*) the proceedings (if any) by which the said rent was fixed,

(*d*) the general rate prevailing in the village for different classes of lands,

(*e*) the date (as nearly as it can be ascertained) when the said general rate was last adjusted in the village,

(*f*) the area and description of the land, held in excess of the area for which rent has been previously paid, for which an increase of rent is claimed,

(*g*) the amount of the said increase, and

(*h*) the manner in which the said increase should be assessed.

(*3*) If a survey and record-of-rights have been made, under Chapter X of the Bengal Tenancy Act, 1885, or any other law for the time being in force, in respect of any land referred to in clause (*b*) or clause (*f*) of sub-section (*2*), the 'area and description' required by those clauses, respectively, shall be specified by citing the plot number, area and class of each field included in the land, as shown by such survey and record. VIII of 1885

The Chota Nagpur Tenancy (Amendment) Bill, 1907.
(Clause 9.)

(*h*) The provisions of sections 49 and 50 shall apply to every application made under this section.

Such applications how to be dealt with.

"240. (*1*) On receipt of any such application, the Deputy Commissioner— [*Cf.* Act I of Ben. 1879, s. 24.]

(*a*) shall forthwith give notice of the contents thereof to the tenant,

(*b*) shall refer to the entry (if any) relating to the tenancy in the record-of-rights prepared under Chapter X of the Bengal Tenancy Act, 1885, or other law for the time being in force, VIII of 1885

(*c*) may, if he thinks fit, order a measurement of the land held by the tenant, and

(*d*) may, upon consideration of all the circumstances set forth in the application, and after hearing any objection which may be advanced by the tenant, and making such further inquiry as the Deputy Commissioner may think necessary, order such an increase, whether progressive or otherwise, as he may consider fair and reasonable.

(*2*) When any increase has been so ordered, it shall be payable from the commencement of the local year following that in which the order is passed, and may be recovered from the tenant in any suit preferred against him for arrears of rent."

New sections 28A to 28E.

9. The sections of the said Act which are numbered 28A and 28B shall be re-numbered 28F and 28G, respectively; and before the said section 28F the following shall be inserted, namely:—

Customary rights in Ranchi district.

"28A. In the district of Ranchi it shall be presumed, until the contrary is proved, that every tenant in a village has a right—

(*a*) to graze his cattle, free of charge, on all waste land of the village and on all cultivated land of the village while temporarily lying fallow;

(*b*) to take fruit (except jack fruit) from any trees growing on any land in the village, and

(*c*) in every jungle comprised in the village,—

(*i*) to graze his cattle,

(*ii*) to cut and take fuel for domestic purposes, timber for building or repairing his house and for making or repairing his agricultural implements, and grass for thatching his house,

(*iii*) to collect edible fruits and roots for consumption by himself and his family, and

(*iv*) to collect for his own use all other products of the jungle.

Cultivated land in Ranchi district to be let only to Bhuinhari or Mundari khunt-kattidari villagers, and at certain rates of rent.

"28B. (*1*) In every village in the district of Ranchi which comprises—

(*a*) land which is entered in the register prepared under section 5 of the Chota Nagpur Tenures Act, 1869, as being of any class other than majhihas or beth-kheta, or Ben. Act II of 1869.

(*b*) land which is entered as a Mundari khunt-kattidari tenancy in a record-of-rights finally published under Chapter X of the Bengal Tenancy Act, 1885, or any other law for the time being in force, VIII of 1885.

whenever any cultivated land, other than majhihas or beth-kheta, comes into the possession of the landlord, whether by abandonment, by relinquishment, by the death of the cultivator without heirs, or by any other means, it shall be let as provided in sub-section (*2*); and, if already in the cultivating possession of the landlord, it may be let only as provided in that sub-section.

The Chota Nagpur Tenancy (Amendment) Bill, 1907.
(Clause 9.)

(2) The only persons to whom land referred to in sub-section (1) may be let are—

in case (*a*) of sub-section (1), members of the Bhuinhari family of the village, and

in case (*b*) of sub-section (1), members of the Mundári khunt-katti family of the village;

and the rent payable for such land shall be—

(*i*) the average rate of rent payable for lands of the same class in the same village by occupancy-raiyats, as entered in the record-of-rights prepared under Chapter X of the Bengal Tenancy Act, 1885, or any other law for the time being in force, or VIII of 1885.

(*ii*) where no record-of-rights has been so prepared—the prevailing rate of rent payable by occupancy-raiyats in the village for lands of a similar description and with similar advantages.

"28C. The prevailing rate referred to in clause (*ii*) of section 28B shall be ascertained by an examination of the rates at which lands of a similar description and with similar advantages are held within the village; and the highest of such rates at which and at rates higher than which the larger portion of those lands is held shall be taken to be the prevailing rate. [*Cf.* Act VIII of 1885, s. 31A.]

Prevailing rate of rent how to be ascertained.

Illustrations.

(*a*) The rates at which land of a similar description and with similar advantages is held in a village are as follow:—

Bighas.				Rs.	A.	P.
100	...	...	... at	1	0	0
200	...	...	... „	1	8	0
150	...	...	... „	1	12	0
100	...	...	... „	2	0	0
150	...	...	... „	2	4	0
Total ... 700						

Then Rs. 2-4 is not the prevailing rate, because only 150 bighas, or less than half, are held at that rate. Rs. 2 is not the prevailing rate, because 200 bighas, or less than half, are held at that rate or a higher rate. Re. 1-12 is the prevailing rate, because 400 bighas, or more than half, are held either at that rate or a higher rate, and that is the highest rate at which, and at rates higher than which, more than half the land is held.

(*b*) The rates at which land of a similar description and with similar advantages is held in a village are as follow:—

Bighas.				Rs.	A.	P.
100	...	...	... at	1	0	0
250	...	...	... „	1	4	0
150	...	...	... „	1	8	0
150	...	...	... „	1	12	0
50	...	...	... „	2	0	0
Total ... 700						

Then, for the reasons given in Illustration (*a*), neither Rs. 2 nor Re. 1-12 is the prevailing rate, nor is Re. 1-8 the prevailing rate, because only 350 bighas (exactly half) are held at Re. 1-8 or at rates higher than Re. 1-4. In this case Re. 1-4 is the prevailing rate, because more than half the lands are held at Re. 1-4 or higher rates, and that is the highest rate at which, and at rates higher than which, more than half the land is held.

"28D. If the Deputy Commissioner is satisfied, on complaint made to him, that any landlord has failed to comply with the provisions of section 28B in respect of any land, or has made an inequitable settlement of any land under that section, the Deputy Commissioner—

Procedure in case of contravention of section 28B.

(*a*) shall himself let such land in accordance with the said provisions, and

(*b*) shall, at the end of the local year then current, eject from such land any person who is found in possession thereof in contravention of the said provisions, and

The Chota Nagpur Tenancy (Amendment) Bill, 1907.
(Clauses 10-12.)

(c) may impose on the landlord a fine which may extend to one hundred rupees for each separate settlement made by the landlord in contravention of the said provisions.

Power to let to other persons land referred to in section 28B.

"28E. (1) Notwithstanding anything contained in section 28B or section 28D, if the landlord has reason to believe—

(a) that there is no surviving member of the Bhuinhari family or the Mundari khunt-katti family, as the case may be, of the village, or

(b) that no such surviving member is willing to become a tenant of any land to which section 28B applies, or

(c) that the existing tenancies of the members of such Bhuinhari family or Mundari khunt-katti family, as the case may be, are sufficient for their reasonable requirements,

he shall present an application to the Deputy Commissioner, asking for permission to cultivate the said land himself or to let it to any other tenant.

(2) Whenever the Deputy Commissioner receives an application under sub-section (1), he shall cause an inquiry to be made; and, if he finds that the circumstances are as stated in clause (a), clause (b) or clause (c) of that sub-section, he shall grant the permission asked for."

Amendment of section 28F of the said Act and of section 111 of the Bengal Tenancy Act, 1885.

10. To section 28F of the said Act, and to section 111 of the Bengal Tenancy Act, 1885, as in force in the Chota Nagpur Division, the following shall be added, namely :— VIII of 1885.

"or any suit or application for establishing the existence or non-existence of customary rights in waste or jungle land in any village in such area."

New section 28H.

11. After section 28G of the said Act the following shall be inserted, namely :—

Exclusion of evidence of proceedings in Courts, pending final publication of record-of-rights.

"28H. When an order has been made, under section 101 of the Bengal Tenancy Act, 1885, or any other law for the time being in force, directing the preparation of a record-of-rights by a Revenue-officer, [*Cf.* Ben. Act I of 1879, s. 163.] VIII of 1885.

no judgment, decree or order passed by any Court in any suit between the making of such first mentioned order and the final publication of the record-of-rights shall be received in evidence—

(a) in any inquiry made by such Revenue-officer, in the course of preparing such record-of-rights, into—

(i) the existence, non-existence, extent or value of customary rights in waste or jungle land in the area to which the record-of-rights applies, or

(ii) the amount of rent payable in respect of any tenancy therein, or

(b) in any proceeding in any Court relating to the subject-matter of the judgment, decree or order so passed."

New sections 30A and 30B.

12. After section 30 of the said Act the following shall be inserted, namely :— [*Cf.* Act III of 1885, s. 89.]

Tenure-holder or raiyat not to be ejected except in execution of decree.

"30A. No tenure-holder or raiyat shall be ejected from his tenancy or any portion thereof except in execution of a decree.

Power to replace in possession tenure-holder or raiyat ejected in contravention of section 30A.

"30B. If any tenure-holder or raiyat is ejected from his tenancy or any portion thereof in contravention of section 30A, he may, within a period of one year from the date of such ejectment, present to the Deputy Commissioner an application praying to be replaced in possession of such tenancy or portion; and the Deputy Commissioner may, if he thinks fit, after making a summary inquiry, replace him in possession."

The Chota Nagpur Tenancy (Amendment) Bill, 1907.
(Clauses 13-19.)

New sections 45A and 45B.

13. After section 45 of the said Act the following shall be inserted, namely:—

"45A. Suits for the recovery of possession of a tenure or holding, or any portion thereof, from which a tenure-holder or raiyat has been unlawfully ejected, must be instituted within six years from the date of such ejectment.

Suits for recovery of possession of tenure or holding.

"45B. If any tenure-holder or raiyat has, within a period of twelve years before the commencement of the Chota Nagpur Tenancy (Amendment) Act, 1907, been unlawfully ejected by the landlord from his tenancy or any portion thereof, he may,

Suit by tenure-holder or raiyat unlawfully ejected twelve years or less before the commencement of the Chota Nagpur Tenancy (Amendment) Act, 1907.

at any time within twelve years from the date of such ejectment, and notwithstanding that a previous suit may have failed by reason of the ejectment having taken place more than one year before the institution of such suit,

institute a suit to recover possession of the said tenancy or portion thereof."

New section 48A.

14. After section 48 of the said Act the following shall be inserted, namely:—

"48A. In the case of all suits referred to in section 48, and of all other suits (except those referred to in section 47) relating to the rent of land or to any right or easement arising out of land, if a survey and record-of-rights have been made, under Chapter X of the Bengal Tenancy Act, 1885, or under any other law for the time being in force, in respect of the land to which the suit relates, the statement of claim must, unless in any case the Court otherwise directs, specify the plot numbers of the land as described in such survey and record."

Further particulars in statement of claim.

VIII of 1885.

Amendment of section 152 (6).

15. To sub-section (6) of section 152 of the said Act the following shall be added, namely:—

"and no such contract or agreement shall be registered."

Amendment of section 160.

16. In section 160 of the said Act, for the words "the Revenue-officer who prepared such record" the following shall be substituted, namely:—

"any Revenue-officer appointed in this behalf by the Local Government, by name or by virtue of his office."

Amendment of section 162.

17. In section 162 of the said Act, for the words "the Revenue-officer who prepared the record" the following shall be substituted, namely:—

"the Revenue-officer referred to in section 160."

Part III.—Amendment of the Chota Nagpur Commutation Act, 1897.

Amendment of section 9A.

18. In clause (8) of section 9A of the Chota Nagpur Commutation Act, 1897, as amended by the Chota Nagpur Tenancy (Amendment) Act, 1903, for the words "the Revenue-officer who prepared such record" the words "a Revenue-officer" shall be substituted.

Ben. Act IV of 1897.
Ben. Act V of 1903.

Amendment of section 10 (1).

19. In section 10, sub-section (1), of the said Chota Nagpur Commutation Act, 1897, after the word "services," in the second place in which it occurs, the following shall be inserted, namely:—

"(or any mahtut, mangan or madud, or any other similar demand, howsoever denominated, and whether regularly recurrent or intermittent)".

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is mainly to remove certain grievances under which the aborigines in Chota Nagpur, and especially the Mundaris in the district of Ranchi, suffer, and to recognise by law certain customs prevalent among them.

An explanation of the changes proposed will be found in the subjoined "Notes on Clauses"

NOTES ON CLAUSES.

Clause 3.—This clause provides for the recognition of what has always been regarded by the aboriginal tribes as their customary right with regard to the making of new terraced lands.

Clause 4.—In the existing Act there is no definition of "village." The amendment to this section is intended to ensure that the wording of the first clause may effectually enable the Government policy to be carried out, and has been suggested by the Advocate-General.

Clause 5.—Transferability is permissible to the holders of Bhuinhari tenures. The result has been that a very large number of such tenures have been parted with by their aboriginal holders, who, by nature, are extravagant in habits. It is therefore thought advisable to cancel this right and preserve the tenures which have not already fallen into the hands of aliens from being lost by their present holders and their heirs.

Clause 6, sub-clause (1).—It is considered necessary that the tenants should be enabled to pay their rents to the landlords by money-order, and similarly, where necessary, to deposit them by the same means in Court, the existing methods having been found to lead to abuses.

Sub-clause (2).—It is proposed to introduce the word "also" merely to make the meaning of the section clearer.

Sub-clause (5).—This presumption has been recommended by the Judicial Commissioner of Chota Nagpur.

Clause 7.—This also embodies a proposal of the Judicial Commissioner, the object being to lessen the fraudulent practices which now occur owing to the period being only seven days.

Clause 8.—This has also been introduced at the suggestion of the Judicial Commissioner in order to safeguard increase of rent, section 21 of the Act not being in his opinion sufficient for this purpose.

Clause 9 (section 28A).—The object of this new section is to create a presumption in favour of tenants in the district of Ranchi with regard to grazing and jungle rights, and to that extent to recognize what has been always claimed by the aborigines.

(*Sections 28B to 28E*).—It is intended by these sections to recognise a claim that has always been put forward by the aborigines with regard to the settlement of vacant lands in villages which have been *khunkatti* villages.

Clause 10.—This amendment is intended to foil the attempts of the landlords of Ranchi to establish their claims before the Settlement Officers by means of decrees, gained with this object through misrepresentation of the real facts.

Clause 11.—The necessity for this provision is due to the fact that landlords have been found in many cases to obtain decrees for alleged arrears of rent or forest dues which in reality are enhancements, such decrees being obtained with the object of using them before the Settlement Officer to support their claims.

Clause 12.—This clause has been inserted on the advice of the Judicial Commissioner.

Clause 13.—The present period of limitation is one year. The experience of the Local Authorities has shown this to be much too little owing to the character of these aborigines and the fact that many of them go away to labour in tea gardens for four to five years.

Two classes of cases are provided for, *viz.*, those who are dispossessed after the Bill becomes law and those who have been dispossessed before that event. For the latter the period has been made longer in order to remedy more of the evils that have happened in the past owing to unlawful dispossession.

Clause 14.—This clause embodies a suggestion of the Judicial Commissioner.

Clause 15.—This clause rectifies an oversight in Bengal Act V of 1903.

Clauses 16, 17 and 18.—These proposed amendments embody a suggestion of the Board of Revenue and are needed to remove an administrative inconvenience.

Clause 19.—The reason for the addition inserted by this clause is to prevent the imposition of any new *abwab*.

SEPTIC TANKS.

The Hon'ble BABU RADHA CHARAN PAL asked :—

(*a*) Will the Government be pleased to state the total number of septic tanks in this Province, and whether any new installations have been constructed in the present year?

(*b*) Is the Government now in possession of the report of Dr. Fowler, the specialist sent out from England to inquire into the septic tank installations in Bengal?

(*c*) If so, will the Government be pleased to state when the report is going to be made public?

The Hon'ble MR. MCINTOSH replied :—

"(*a*) There are about 50 septic tank installations in the Province, of which 15 were constructed or were under construction during 1906. Some of these have not been brought into use yet. In this connection, the Hon'ble Member's attention is invited to the Resolution of Government, No. 418, dated 6th January, 1906, which was published in the Calcutta Gazette.

"(*b*) *and* (*c*) Dr. Fowler's Report has not been received yet."

JUDICIAL SERVICE.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked :—

The Government was pleased to announce that it would consider the matter of the hardship under which members of the Judicial Service labour by the operation of the 55 years' compulsory retirement rule, having regard to the fact that few of them are made permanent in their appointments before they are 30 years of age. Has the Government come to any decision on the matter? Will the Government be pleased to consider the advisability of ordering that—(1) the period of service entitling a Judicial Officer to pension be slightly reduced; (2) that the officiating period be counted as actual pensionable service, and (3) that the age for compulsory retirement be raised to 57 years in cases of gentlemen who would not otherwise be entitled to full pension?

The Hon'ble MR. RICHARDSON replied :—

"The proposal that Munsifs should be permitted to count the broken periods spent by them in officiating appointments before confirmation as pensionable service is still under consideration with reference to the rules which regulate admission to the Subordinate Judicial Service.

"The suggestions of the Hon'ble Member that the period of service entitling a Judicial Officer to pension should be slightly reduced, and that the age for compulsory retirement should be raised in certain cases to 57 years, do not recommend themselves to the Government."

PROVINCIAL CIVIL SERVICE.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked:—

Has the attention of Government been drawn to the adverse criticisms in the Calcutta Indian papers about the appointment of three gentlemen from outside the Provincial Civil Service at once to higher grades of that service over other competent officers who have been long in the service? Will the Government be pleased to consider the advisability of making its reasons for such appointments public?

Will the Government be pleased to consider the claims of Deputy Magistrates, who are already in the service, to promotions in making the appointments to the posts in the higher grades of the service recently sanctioned, and the advisability of not appointing outsiders at once to the higher grades?

The Hon'ble MR. CARLYLE replied:—

"The attention of Government has been drawn to the adverse criticism by some Calcutta papers regarding the recruitment of three gentlemen direct to higher grades of the Provincial Civil Service. The criticisms appear to be based on the assumption that members of the service are entitled to extra promotion, because the cadre has been increased. The cadre was increased with the object of providing a sufficient number of officers to cope with the increasing administrative needs of the Province. It was recognized at the outset that officers in the service had no claim to any extra promotion, which might be available owing to the increase in the number of appointments in the higher grades; and, in fact, one of the original proposals that received serious consideration was to separate the cadre of the new appointments entirely from that of the original service. This proposal was not accepted; but the fact remains that the members of the service, who were in it before the new appointments were made, have no claim of right, as based on reasonable expectation, to any promotion in the vacancies in the higher grades caused by the increase of the cadre. The Secretary of State has, however, sanctioned the partial filling up of the higher grades by officers in the service before the re-organization, and some officers will shortly be promoted. It was proposed by this Government, and the sanction of the Secretary of State has been accorded to the proposal to make a few direct appointments in the higher grades for this, among other reasons, that it was desirable to recruit a certain number of officers with special qualifications in order to strengthen the service. There does not appear to be any necessity for re-considering the question.

"The answer to the second part of the Hon'ble Member's question will be found in the remarks already made."

ALAIPUR KHAL.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked:—

Is the Government aware that the Alaipur Khal, the only convenient route to Eastern Bengal, which was excavated some years ago, is again silting up? Will the Government be pleased to consider the advisability of taking steps to prevent such silting up?

Will the Government be pleased, having regard to the present condition of the khal, now to accede to the prayer of the people of Khulna, contained in the joint address of the District Board and the Municipality, that a sluice-gate near the mouth of the Alaipur Khal should be put up?

The Hon'ble MR. INGLIS replied:—

"The Alaipur Khal is at present in good order, but owing to the action of the tidal flow which enters from both ends silting must go on. The only way to remedy this is by the construction of locks at either end. The cost would be great, and it is doubtful if the traffic is sufficient to justify such expenditure. The question will receive the further consideration of Government."

ATHARBANKA RIVER.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked:—

Is the Government aware that the river Atharbanka, near Chachiadah, in thana Mollahat, in the district of Khulna, is silting up, and steamers cannot ply now there during ebb-tide? As the silting up of this portion of the river Atharbanka will make the Madaripur bhil route, opened at an outlay of over seven lakhs of rupees, useless, does the Government propose to take any action to clear the silt?

The Hon'ble MR. INGLIS replied:—

"Government has no present information with regard to the silting of the Atharbanka. An inquiry will be made."

GORAI RIVER.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked:—

In consideration of the fact that the mouth of the Gorai or the Madhumati river, where it rises from the Ganges near Kushtia, is fast silting up, and thereby preventing the inflow of sufficient sweet water into the districts of Nadia, Jessore and Khulna, the khals and rivulets of which are also as a consequence fast deteriorating, will the Government be pleased to consider the advisability of removing the silt bar by periodical dredging or excavating another channel avoiding the silt bar by which water from the Ganges may flow, unimpeded, into the Gorai?

The Hon'ble MR. INGLIS replied:—

"There is not merely a silt bar at the intake of the Gorai from the Ganges, owing to a change in the channel of the Ganges there is a length of about eleven miles of river-bed which would have to be cleared to restore the flow in the season of low water. Even if it could be cleared, it would in all probability fill up again in the first flood. It does not appear to be practicable to alter the existing state of affairs."

MATHABHANGA RIVER.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked:—

In consideration of the fact that the upper reaches of rivers Chitra, Bhairab, Kopotaksha and Nobaganga, which all take their rise from the Mathabhanga river, have been silted up, will the Government be pleased to consider the advisability of excavating shallow canals in order to allow the waters of the Mathabhanga to flow into the above-named rivers, at least during the rainy season when there is more water in it than is necessary for the purposes of the navigation of the river Jelingi?

The Hon'ble MR. INGLIS replied:—

"This question will receive the consideration of Government."

THE CHOTA NAGPUR TENANCY (AMENDMENT) BILL, 1907.

The Hon'ble MR. SLACKE moved for leave to introduce a Bill further to amend the Chota Nagpur Landlord and Tenant Procedure Act and the Chota Nagpur Commutation Act, 1897. He said:—

"I rise, Sir, to ask for leave to introduce into Council a Bill to amend the Chota Nagpur Landlord and Tenant Procedure Act, 1879, and the Chota Nagpur Commutation Act, 1897.

"This Council will probably remember that in 1903 an Act was passed to amend both the Acts I have mentioned, and it may be asked why is it necessary after so short an interval of time to introduce another Bill for the same

[illegible]

"For the information of those Hon'ble Members who were not present when the Bill that resulted in the amending Act of 1903 was discussed, I would state that, in order to ascertain, and as far as possible to remedy, the grievances which had led the Mundaries in Chota Nagpur to revolt so often, Government decided to undertake a survey and record-of-rights of the district of Ranchi.

"These operations are now in progress, and it was mainly in consequence of certain facts which the Settlement Officer, Mr. Lister, brought forward that the amending Act of 1903 owed its origin. At the time that Act was passed, it was recognized that, when the Settlement Officer was in possession of the requisite facts, Act I of 1879 and its amending Acts would have to be repealed, and its place taken by a general consolidating Act.

"The time has not yet arrived when this can be carried out. But in September, 1904, Your Honour ordered Mr. Lister and myself to prepare a joint note dealing with the grievances which the Mundaries experienced according to their own views. To that note is chiefly due the inception of this Bill, which I now desire to introduce into Council. It showed the existence of certain grievances, the remedy for which could not be postponed until Government was in a position to deal with the Act as a whole, and consequently it was determined to prevent as soon as practicable the continuation of these grievances, and for that purpose this Bill has been drafted.

"With these remarks, Sir, I would ask for leave to introduce this Bill into Council."

The motion was put and agreed to.

The Hon'ble Mr. SLACKE introduced the Bill and moved that it be read in Council. In doing so, he said:—

"Should this be granted by Council, the Bill will be duly published, and time given to those interested in the measure to submit to Government such comments on its provisions as they may think fit to make."

The motion was put and agreed to, and Secretary accordingly read the title of the Bill.

The Council was then adjourned to Saturday, the 2nd February, 1907.

CALCUTTA;
The 15th January, 1907.

L. C. ADAMI,
Offg. Secretary to the Bengal Council.

Approximate position, lat. 13° 10½′ N., long. 124° 13′ E.

This notice affects the following Admiralty Charts:—The Philippine islands, No. 948; St. Bernardino to Mindoro strait, No. 2577; Batan island to San Bernardino island, No. 2368; Also, List of Lights, part VI, 1906, page 111; Eastern Archipelago, part I, 1902, page 382; and Supplement, 1906, page 32.

EASTERN ARCHIPELAGO—Sulu sea—Palawan, east coast.

Port Princesa (Royalist) and Honda bay—Shoals.

No. 18 (first publication).—The British Admiralty has given notice (No. 1435 of 1906) of the existence of the undermentioned shoals off the east coast of Palawan island:—

Port Princesa—

A shoal with a depth of 4 fathoms over it, about half a cable in extent in the entrance to port Princesa, situated in a position from which Panagtaran point bears S. 29° W., distant 9½ cables, and Saboruco point N. 53° W.

This danger is named Polillo rock.

Approximate position, lat. 9° 42′ N., long. 118° 45½′ E.

Honda Bay—

A shoal, with general depths over it of from 2 to 6 fathoms, about 3 miles long, in a north-easterly and south-westerly direction, and 1½ miles broad. The north-easterly end of this shoal is situated at a distance of 6½ miles N. 74° E. from the northern point of Anchorage island, and the south-westerly end 4½ miles S. 79° E. from the same point.

Approximate position, north point of Anchorage island, lat. 9° 56′ N., long. 118 55′ E.

(*Variation 1° Easterly in 1905.*)

This Notice affects the following Admiralty Charts:—Palawan island, No. 967; port Princesa (Royalist), No. 2914: Also, China Sea Directory, vol. II, 1906, pages 280, 284.

EASTERN ARCHIPELAGO—Malacca strait—Pulo Penang.

Pulo Rimau light—Alteration in—.

No. 19 (first publication).—With reference to Notice to Mariners No. 241, dated 3rd July 1906, issued by this office, the British Admiralty has given further notice (No. 1440 of 1906) that, on 5th February 1907, Pulo Rimau light (*occulting*) will be altered to show the following sectors:—*red* from the bearing of S. 78° E., through east, to N. 52° E.; *white* from N. 52° E. to N. 22° E.; *red* from N. 22° E., through north and west, to S. 34° W., being obscured in other directions.

Approximate position, lat. 5° 14′ N., long. 100° 16½′ E.

(*Variation 2° Easterly in 1906.*)

This Notice affects the following Admiralty Chart:—Penang harbour, No. 1366: Also List of Lights, part VI, 1906, No. 412; and China Sea Directory, vol. I, 1896, page 147.

PACIFIC OCEAN, SOUTH—Society islands—Tahiti.

Papiete seaborne—Beacon replaced by mast.

No. 20 (first publication).—The British Admiralty has given notice (No. 1447 of 1906) that the white pyramidal beacon from which the rear leading light (*red fixed*) into Papiete harbour was exhibited has been replaced by an iron mast, painted white, from which a *red fixed* light is exhibited at an elevation of 76 feet above high water and 69 feet above the ground.

Approximate position, lat. 17° 32½′ S., long. 149° 34′ W.

This Notice affects the following Admiralty Chart:—Papieté pass to Papenu pass, No. 1158: Also List of Lights, Part VII, 1906, No. 1613; Pacific Islands, vol. III, 1900, page 60; and Supplement, 1903, page 5.

KOREA, WEST COAST—YALU KIANG APPROACH.

Teifaato light—Not exhibited during winter months.

No. 21 (first publication).—With reference to Notice to Mariners No. 4, dated 4th January 1907, issued by this office, the British Admiralty has given further notice (No. 1448 of 1906) that during the winter season, from about the 15th November to about the end of March, the *white flashing* light, *every eighteen seconds*, on the western end of Teifaato, in the southern approach to Yalu kiang, will not be exhibited owing to the prevalence of ice in the locality.

Approximate position, lat. 39° 26½′ N., long. 124° 35′ E.

This Notice temporarily affects the following Admiralty Charts:—Hong Kong to Liau tung gulf, No. 1862; Nipon, etc., No. 2347; Pechili and Liau tung gulfs, No. 1856; approaches to Ping yang inlet, No. 1857: Also List of Lights, Part VI, 1906, page 149; and Sailing Directions for Japan and Korea, etc., 1904, page 39.

JAPAN—YEZO (HONSHU), SOUTH COAST.

Yerimo zaki—Non-existence of shoal reported on the south-westward.

No. 22 (first publication).—With reference to Notice to Mariners No. 58, dated 6th March 1896, issued by this office, the British Admiralty has given further notice (No. 1449 of 1906) that a careful search has been made over an area of about one mile around the assigned position of the 5-fathom shoal reported in 1895 to exist at a distance of 18 miles S. 79° W. from Yerimo zaki without success.

This area was swept over without finding any indication of the existence of rocks, the depths obtained being from 68 to 72 fathoms over a mud bottom; it is not considered therefore that this shoal exists, and it has consequently been erased from the charts.

Approximate position, lat. 41° 51′ N., long. 142° 53′ E.

(*Variation 4° Westerly in 1906.*)

This Notice affects the following Admiralty Charts:—Pacific ocean, No. 2459; Kuril islands, No. 2405: Yezo island, No. 452: Also Sailing Directions for Japan, Korea, etc., 1904, page 730.

AFRICA—SOUTH-EAST COAST—NATAL.

No. 23 (first publication).—With reference to Notice to Mariners No. 159, dated 14th May 1904, issued by this office, the British Admiralty has given further notice (No. 1452 of 1906) that, on 15th December next, a *white fixed* light elevated about 388 feet above high water, and visible in clear weather from a distance of 15 miles from the bearing of N. 52° E., through north and west, to S. 52° W., but obscured in other directions, will be established in a tower 25 feet in height, painted in black and white bands, erected at a distance of about 1½ miles to the northward of cape St. Lucia, Zulu coast, the light being of the 4th order.

Approximate position, lat. 28° 31′ S., long. 32° 24′ E.

(*Variation 22° Westerly in 1906.*)

This Notice affects the following Admiralty Charts:—Indian ocean, No. 748a; Tugela river to Delagoa bay, No. 2089: Also List of Lights, Part VI, 1906, No. 34; Africa Pilot, Part III, 1905, page 186.

AUSTRALIA—SOUTH—SPENCER'S GULF.

Tipara light-house—Fog gong established.

No. 24 (first publication).—The British Admiralty has given notice (No. 1455 of 1906) that a fog gong which, during thick or foggy weather, will be sounded for a space of *thirty seconds* every *five minutes*, has been established at Tipara reef light-house, Tipara bay.

Approximate position, lat. 34° 4′ S., long. 137° 24′ E.

This Notice affects the following Admiralty Charts—St. Vincent and Spencer gulfs, No. 2389b; Wallaroo and Tipara bays, No. 402: Also List of Lights, Part VI, 1906, No. 1222; and Australia Directory, vol. I, 1897, page 233.

EASTERN ARCHIPELAGO—SUMATRA, NORTH-EAST COAST—ARU BAY.

Sembilang light.—Intended alteration.

No. 26 (first publication).—The British Admiralty has given notice (No. 1478 of 1906) that it is intended to alter the light on the southern point of pulo Sembilang (Tampalis), Aru bay, from fixed to *white flashing every three seconds*, the duration of each flash being *one second*. The new light will be of the 6th order.

Approximate position on chart No. 3586, lat. 4° 8′ N., long. 98° 14½′ E.

Further Notice will be given when received.

This Notice affects the following Admiralty Charts:—Acheh head to Tyingkok bay, No. 2760; Malacca strait, No. 1355; Diamond point to pulo Berhala, No. 1353; Aru bay, No. 3586: Also List of Lights, Part VI, 1906, No. 396; China Sea Directory vol. I 1896, page 76; and Supplement, 1899, page 6.

EASTERN ARCHIPELAGO—SUMATRA, NORTH-EAST COAST.

Panei river—Wreck in approach.

No. 26 (first publication).—The British Admiralty has given notice (No. 1479 of 1906) that the wreck of the steam-vessel *Bila* lies sunk in a depth of 10 fathoms in a position situated about 2 miles N. 67° E from the fairway buoy in the approach to Panei river.

Approximate position, lat. 2° 52½′ N., long. 100° 10½′ E.

(*Variation 1° Easterly in 1906.*)

This Notice affects the following Admiralty Chart:—Pulo Berhala to cape Rachado, No. 794: Also China Sea Directory, vol. I, 1896, page 98.

EASTERN ARCHIPELAGO—JAVA, EAST COAST.

Surabaya, eastern channel.—Intended alteration in buoyage.

No. 27 (first publication).—The British Admiralty has given notice (No. 1480 of 1906) that it is intended to alter the buoyage of the eastern entrance to Surabaya, the positions of the light-buoys being re-arranged so that vessels may steer from buoy to buoy.

Further notice will be given when the positions of the buoys have been made known.

Approximate position, Surabaya, lat. 7° 13′ S., long. 112° 44′ E.

This Notice affects the following Admiralty Chart:—Surabaya strait on chart No. 934: Also Eastern Archipelago, Part II, 1904, page 127; and Supplement, 1906, page 11.

BAY OF BENGAL—ORISSA COAST.

Dhamra (Byturni) river.—Sickle sand and Pilot sand buoys shifted.

No. 28 (first publication).—The Port Officer, Cuttack and Balasore ports, has given notice, dated 7th January 1907, that the following buoys have been shifted as follows:—

Sickle sand buoy has been shifted 200 feet south of the former position into 7 feet reduced. Pilot sand buoy has been shifted 150 feet west of its former position into 8 feet reduced.

The bearings are magnetic.

The 14th January 1907.

PERSIAN GULF—BAHREIN HARBOUR.

Position of buoys.

No. 500 (second publication).—The Bombay Government has given notice (No. 129 of 1906) that the following buoys are placed in position:—

A conical red buoy surmounted with 10 feet black staff and basket on top, on the 18 feet patch at the entrance channel.

A conical black buoy off Khaseifa Spit on the following bearings:—Minarets S. 9 W. Kalali Tower S. 47° E., Muharrak Fort closed in by town S. 21° E.

On the first opportunity a can red buoy will be placed on the West Spit with the following bearings:—Muharrak Fort S. 60° E., Ras Riya N. 87° E., Centre of Portuguese Fort S. 16° W.

(The bearings are Magnetic.)

This notice affects the following Admiralty Charts:—Bahrein Harbour Nos. 20 and 3380; and Persian Gulf (Western Sheet) No. 2837b; also Persian Gulf Pilot, 1898, page 154, and Supplement, 1905, page 15.

AFRICA, SOUTH-EAST—PORT NATAL.

Cape St. Lucia—A new lighthouse established.

No. 501 second publication).—The following Notice to Mariners is republished for general information :—

The Government of Natal gives notice that on the 15th December 1906, a new Lighthouse, showing a fixed bright light of the 4th order, will be established on a site about 1½ miles north of Cape St. Lucia (Zululand Coast).

The focal plane of the Light will be 388 feet above L. W. O. S. T.

The elevation of the base on which the tower stands is 363 feet above L. W. O. S. T.

The position of this tower is Latitude 28 deg 31 min., South, Longitude 32 deg. 24 min., East.

The tower is painted in black and white bands.

The light will be visible between the true bearings North 30 deg. East to South 30 deg. West or through the magnetic bearings North 52½ deg. East to South 52½ deg. West.

The light should be visible from a distance of about 15 nautical miles in clear weather, and it should be noted that as the light only shines through 180 degrees, it will be obscured between the bearings given above and the coast line.

The 29th December 1906.

AFRICA, EAST COAST—DALAGOA BAY.

Lorenzo Marques—Beacon light altered.

No. 1 (second publication).—With reference to Notice to Mariners, No. 343, dated 1st December 1902, issued by this office, the British Admiralty has given further notice (No. 1384 of 1906) that on 1st October 1906, the colour of the light (*fixed*) shown from the circular stone pillar on the edge of the mud flat extending from Lorenzo Marques, and situated at a distance of 5½ cables S. 36° E. from the harbour light, has been altered from green to show *red* over the port when bearing to the northward of about N. 30° W. (viz., a line passing through the position of the light-buoy off Reuben point), and *white* over the shore when bearing to the westward of that bearing.

Approximate position, lat. 25° 58¾′ S., long. 32° 35′ E.

(*Variation 20° Westerly in 1906.*)

This Notice affects the following Admiralty Charts :—Delagoa bay, No. 644 ; English river, No. 646 : Also List of Lights, Part VI, 1906, No. 37; Africa Pilot, Part III, 1906, page 199.

NEW ZEALAND—SOUTH ISLAND.

Bluff harbour—Buoys replaced by beacons.

No. 2 (second publication).—The British Admiralty has given notice (No. 1395 of 1905) that two red beacons, each surmounted by a red disc, have been erected off Tewaewae point, Bluff harbour entrance, in the following positions, to serve as navigational marks in lieu of the buoys:—

a. A beacon in a depth of 20 feet at low water, in a positin situated at a distance of 390 yards S. 18° W. from Quarantine pier head. The red buoy near this position has been withdrawn.

b. A beacon in a depth of 23 feet at low water, in a position situated at a distance of 580 yards S. 33° E. from Quarantine pier head. The red buoy 70 yards to the westward of this position has been withdrawn

Approximate position, Quarantine pier head, lat. 46° 36½′ S., long. 168° 22¾′ E.

(*Variation 18° Easterly in 1906.*)

CHINA SEA—TONG KING GULF.

Norway islands.—Intended alteration in light.

No. 7 (second publication).—The British Admiralty has given notice (No. 1417 of 1906) that it is intended shortly to alter the character of Norway islands light from white flashing every minute to *white flashing every five seconds.* The alterations, which would be commenced on November 1st, will probably take three months, during which period two *white fixed* vertical lights, visible from a distance of 12 miles in all directions, except from the northward, would be exhibited. These two lights, which will be masked in a northerly direction, will appear as a single light outside a radius of 9 miles; they must not, therefore, be mistaken for the *white fixed* light on Hondau.

Approximate position, lat. 20° 37½′ N., long. 107° 8¾′ E.

Further Notice will be given when this alteration has been made.

This notice affects the following Admiralty Charts :—Tong king gulf, No. 2062 ; Kua Lacht to Kao tao shan island, No. 1965 ; approaches to port Courbet, No. 1169 ; List of Lights, part VI., 1906, No. 737 ; Also, China Sea Directory, vol. II., 1906, page 468.

Port Wakefield—Date of alteration of lights.

No. 12 (second publication).—With reference to Notice to Mariners No. 94, dated 9th March 1906, issued by this Office, the President of the Marine Board, Port Adelaide, has given further notice (No. 25 of 1906) informing Masters of vessels, Pilots and others that the Port Wakefield lights will be altered on the 19th November 1906, and will, on and after that date, show as mentioned hereunder:—

The present White Light on the end of the Wharf will be moved about three (3) feet westward, and be changed to a Red Light. The existing Red Light at the back will be changed to a bright light. These lights in line will lead midway between the two Outer Beacons instead of along the Eastern side of the channel, as at present.

This affects Admiralty Chart 2389b and Plan 2152.

AUSTRALIA, SOUTH.—Port Adelaide River

Outer harbour.—Signals to be observed at the Occulting buoy.

No. 13 (second publication).—The President of the Marine Board, Port Adelaide, has given notice (No 27 of 1906) that Masters of Vessels, Pilots, and others about to enter the Port Adelaide river, shall, when at the Occulting Buoy, signal the dredgers by one prolonged blast of *30 seconds duration* on the whistle or syren, and repeat it every minute until such signal is answered from the dredgers. Vessels bound outwards shall give the same signal when abreast of No. 3 Light Beacon. Every dredger will repeat the above-mentioned signals if steam is up. If steam is not up then by waving a flag *by day* or a white light *by night*, and at the same time haul to one side of the fairway, and show the proper signals.

Masters and Pilots are cautioned to keep, as near as possible, on the line of leads so as not to pass the dredgers too close, and will also reduce speed when approaching and passing them.

This affects Admiralty Charts 2389*a* and *b*, and 1750 and 1752.

CHINA SEA—THE PHILIPPINE ISLANDS—LUZON, EAST COAST—ALBAY GULF.

Rapurapu strait—Beacons and buoys established.

No. 490 (third publication).—The British Admiralty has given notice (No. 1361 of 1906) that the undermentioned beacons and buoys have been established to facilitate the navigation of Rapurapu strait as follows:—

(*a*) Two beacons have been erected on Rapurapu island, the rear beacon being in the shape of a white triangle, point downwards, about 13 feet high, erected about 100 feet within the coast line, and the front beacon a white triangle, point upwards, erected on the edge of the reef 14 feet above high water, both beacons having a black vertical stripe passing through their centres.

These two beacons in line S. 6° W. lead through the channel, eastward of Middle reef. They have been placed on the chart at distances of $2\frac{1}{2}$ miles and $2\frac{5}{10}$ miles S. 8° W. respectively from East point.

(*b*) A red conical buoy, marked No. 2, has been placed in a depth of 4 fathoms off the southern edge of Dickerson or Derickson reef, situated at a distance of $2\frac{5}{10}$ miles S. 28° W. from East point.

(*c*). A red conical buoy, marked No. 4, has been placed in a depth of 4 fathoms on the south-eastern edge of Columbia reef, situated at a distance of $4\frac{5}{10}$ miles S. 48° W. from East point.

CHINA SEA—NATUNA ISLANDS.

Devonport reef—Probable position.—Montrado (Monterado) breakers—Non-existence of.

No. 491 (third publication).—The British Admiralty has given notice (No. 1366 of 1906) that a search has been made for Devonport reef in approximately lat. 3° 54½′ N., long. 108° 31½′ E., without any indication of its existence being discovered.

It is thought probable that the ship *Devonport* was lost on the easternmost of the Penungul reefs, on which a depth of 2½ fathoms has been recently found to exist in approximately lat. 3° 52½′ N., long. 108° 29′ E. From this position the bearing of Ka.nodi island (S.W. by W.) is the same as that given to fix the position of the Devonport; and if the second bearing (N.W.) given by the Devonport be applied to the summit of cape Senubing instead of Senua island, for which it may have been mistaken, it would place the vessel on the easternmost of the Penungul reefs, as already described.

The name of Devonport reef has therefore been transferred to the Eastern Penungul reef, the former Devonport reef being expunged.

Also, that a search for Montrado or Monterado breakers has also been made, but that no indication of its existence could be found, depths of from 40 to 50 fathoms being found over the position assigned to it. It has therefore been expunged from the charts.

Approximate position, lat. 3° 31′ N., long. 108° 4′ E.

RESOLUTION ON THE FOREST ADMINISTRATION REPORT FOR THE YEAR 1905-1906.

REVENUE DEPARTMENT—FORESTS.

Calcutta, the 9th January 1907.

RESOLUTION—No. 174.

READ—

Annual Progress Report of Forest Administration in the Province of Bengal for the year 1905-06.

1. *Changes in area.*—A considerable reduction in the area of the forests under this Government was effected by the Partition of Bengal. The Forest Divisions of Chittagong, Jalpaiguri and Buxa-Duars passed to the new Province, while the Forest Division of Sambalpur, formerly included in the Central Provinces, was added to Bengal. The Forest Divisions in the Province were thus reduced from 12 to 10, considerably lightening the work of the Department and making the charge of the Conservator more controllable. The area of Reserves has been reduced from 6,049 square miles to 4,260 square miles, and of Protected Forests from 3,428 to 3,423 square miles. The whole area of the unclassed forests, amounting to 3,753 square miles, passed with the Chittagong Division to the new Province of Eastern Bengal and Assam.

2. *Forest Surveys and Working-Plans.*—No forest survey operations were carried out during the year. The most important survey work under consideration is that of the Reserved Forests in the Sundarbans, which, it is hoped, will shortly be carried out on the 2-inch scale, since until this is done, the prescriptions of the present provisional working-plan and the collection of data for the working-plan finally to be adopted are difficult to arrange. Four-inch maps of Singhbhum (9), Palamau (5), Darjeeling, Kurseong and Tista (27) and Angul (4) were published during the year, all of which were complete except in the case of Angul. Considerable progress has been made in the preparation and revision of working plans. In the Angul forests a working-plan is under preparation, which is to cover 251 square miles, of which about 100 square miles are to be worked on the selection system, and the balance by improvement fellings. The compilation of a working-plan for the Sambalpur forests has been postponed, but in the meantime field work has commenced in the preparation of stock-maps and in the demarcation of sample plots. Provisional plans for the Darjeeling, Puri and Sunderbans Forests have been revised, and are now awaiting the sanction of the Local Government. In addition, plans for the Tista Valley Range and the Tista Division are in progress.

3. *Communications.*—The Lieutenant-Governor notices with satisfaction the progress which has been made in the opening out of forests by improving the means of communication. A sum considerably larger than in the two preceding years was spent on roads and buildings. The most important work, as in the previous year, was carried on in Singhbhum, where Rs. 25,178 were spent, the result of which in the extension of cart-roads through these inaccessible parts of the Division is already apparent in the increased receipts of revenue. Similar work, but on a smaller scale, is going on in the Angul, Puri and Tista Divisions, the other Divisions for the present being comparatively well supplied with means of export. A sum of Rs. 21,025 was spent on buildings, more than half of which was expended on new buildings, including six new rest-houses. The Lieutenant-Governor is glad to observe that the important question of opening out inaccessible areas and providing comfortable housing for the establishment is receiving due attention.

4. *Protection of Forests: Breaches of the Forest Law.*—It is satisfactory to note that the number of offences reported is less by 326 than the average for the last three years. The total number of cases taken into Court, however, was 284, the same as last year. Of these, 359 cases concerning 755 persons were disposed of, 238 resulting in conviction and 21 in acquittal. The most unsatisfactory Divisions in this respect are the Darjeeling and Tista Divisions, which, considering their importance, deserve special attention. Compounding, which is largely resorted to, has not apparently a sufficiently deterrent effect, while the punishments, when cases are taken into Court, are reported often to be so light as to be practically valueless from a deterrent point of view.

5. *Protection from fire.*—The year was not a favourable one for protection against fire, and the Department is to be congratulated on the successful result obtained under these conditions. In Singhbhum, where one-third of the area under special measures is situated, good and bad years have followed each other with remarkable regularity, but this year the sequence has been broken. Last year was a good one, but this year, notwithstanding the fact that it was an unusually dry year even for Singhbhum, only 3·5 per cent of the area under protection was burnt. In the areas under special protection 49 outbreaks of fire were reported, of which only 4 are reported as having been caused by intention or malice. In the areas not especially protected, it is to be regretted that incendiarism was rife in certain parts of the Sonthal Parganas Protected Forests. The cause has been ascribed to intentional firing in disobedience to the rule regarding the early report of intention to burn areas prepared for cultivation by the shifting or *jhum* system. It has become a question whether special measures for fire-protection in the Sonthal Parganas are not called for.

6. *Protection from Cattle.*—Of the 4,260 square miles of reserves, 84·6 per cent. were closed to all animals, only 12 per cent. being entirely open. On the other hand, outside the Sundarbans Division, 80 per cent. of the Protected Forest area was open to all animals, the balance being closed only to browsers.

In the latter class of Forests, closure for regeneration purposes may be adopted as time goes on, arrangements being made to close areas alternately so as to give the least inconvenience possible to villagers whom such closure would eventually benefit by maintaining the supply of timber and firewood for their household requirements and providing sufficient grass to feed their cattle during the spring months.

7. *Protection against injuries from natural causes.*—The important work of protecting the forest trees against creepers was continued, though not over so extended an area as in the previous year. Severe storms are reported as having occurred in Singhbhum and Puri resulting in considerable damage to the forests. There was, however, no frost of any great severity during the year. Wild elephants still continue to damage the Mal plantations in the Tista Division, while in Darjeeling special arrangements have been necessary, as in previous years, to prevent damage from barking deer.

8. *Administration.*—The Partition reduced the controlling staff on the Bengal ist from 15 to 11, the Provincial service being unchanged numerically, one appointment going to Eastern Bengal and Assam and one being transferred from the Central Provinces. Proposals for the reorganisation of the Subordinate Forest Establishment are now under consideration. Out of the 22 Rangers, 42 Deputy Rangers and 51 Foresters at present employed, only 11 have passed through the Forest School. The importance of training for executive work cannot be exaggerated, and it is hoped that the reorganisation of the Forest School and the institution of a local Training School will place at the disposal of the Department officers of more practical experience, and will, at the same time, economically assist and further the general opening out and working of the forests now in progress.

9. *Financial.*—It is satisfactory to note that all the Divisions were worked at a profit, except Angul and Tista. In Angul the deficit referred to last year was reduced to Rs. 3,085; and, if certain extra charges had not been necessary in connection with surveys and tanks for use in time of scarcity, the Division would have shown a surplus. The Tista Valley also was not worked at a loss, since Rs. 18,589, the value of Tista sleepers sold in the Kurseong Division, was credited to the latter instead of to the former Division. In the Sunderbans Division the regularising of the work and the introduction of the monoply-sale system have so improved matters that the period of its administrative uncertainty may be considered to be a thing of the past. The revenue during the year has increased by Rs. 51,000. In Singhbhum, where comparatively large sums of money are being spent on opening out inaccessible areas and where the monopoly system of sales has been lately introduced, the financial results are also satisfactory. In Puri the revenue, owing to the opening out of the Bánpur Selection working circle and the working up to the maximum of the coppice coupes, increased by no less than 33 per cent. The Sonthal Parganas, and Palaman Divisions also show satisfactory increases in both revenue and surplus, the increase in the former Division being due to better sales of bamboos and in the latter to improved arrangements for the sale of forest products and in an increased demand for mica leases.

10. The Lieutenant-Governor thanks Mr. McIntire for his able administration of the Department and Mr. Lovegrove for his interesting report.

By order of the Lieutenant-Governor of Bengal,

R. W. CARLYLE,

Chief Secy. to the Govt. of Bengal.

RESOLUTION REVIEWING THE DIVISIONAL REPORTS ON THE WORKING OF THE DISTRICT BOARDS IN BENGAL, DURING THE YEAR 1905-06

MUNICIPAL DEPARTMENT—LOCAL SELF GOVT.

Calcutta, the 10th January 1907.

RESOLUTION—No. 74L.S.G.

READ—

The Reports from the Commissioners of Divisions on the working of District Boards in Bengal during the year 1905-06.

DURING the year, 14 districts were transferred from Bengal to the Province of Eastern Bengal and Assam, and the district of Sambalpur was transferred to Bengal from the Central Provinces; the number of District Boards in Bengal was therefore reduced from 42 to 29, of Local Boards from 104 to 77, and of Union Committees from 58 to 49. One Local Board was established in the re-constituted Barrackpore Subdivision. This Resolution reviews the statistics of these bodies, and compares them with the statistics of the Boards and Union Committees formerly existing in the districts which are now comprised in this Province.

2. *Constitution of District Boards.*—The constitution of the District Boards was practically the same as in the previous year. The total number of members was 581, including the 20 members of the Sambalpur District Council, and the number of meetings held was 414 against 411 held in the previous year. The number of meetings which were adjourned or which proved abortive for want of a quorum rose from 23 to 27, but there was a slight improvement in the average attendance at meetings which rose from 10·9 to 11·6. The District Board of Shahabad held the largest number of meetings (22); and most District Boards met at least once a month, the exceptions being Murshidabad (11), Manbhum (11), Palamau (10), Hazaribagh (8) and Sambalpur (5). There was a slight improvement both in the number of meetings held and in the attendance at them in the Chota Nagpur Division.

3. *Constitution of Local Boards.*—The total number of members of Local Boards increased from 884 to 942, the fluctuation being chiefly due to the establishment of a new Local Board at Barrackpore, to the reduction in the number of members of the Barasat Local Board, and to the inclusion in the list of four Local Boards in the district of Sambalpur. The Local Boards convened 872 meetings, or 52 more than in 1904-05, the greatest number (19) being held by the Jessore and Kendrapara Local Boards. Thirty-four Local Boards held less than 12 meetings during the year, and 114 meetings were adjourned or proved abortive for want of a quorum. The Local Board of Gobindpur held no meeting during the year. There was a slight improvement in the attendance of officials, but the attendance of non-officials was worse, the total average attendances being 4·9 against 5·5.

4. *Elections.*—General elections were held in the districts of Nadia, Murshidabad, Jessore, Patna and Sambalpur. Little interest was taken in the elections in the districts of Murshidabad, Jessore and Patna. In Murshidabad they failed in many thanas, and in Jessore they failed entirely in the Bongaon Subdivision and partially elsewhere. It is still the case that, except in the neighbourhood of Calcutta, little or no interest is as a rule taken in the elections.

5. *Powers of Local Boards.*—The powers of the Local Boards remained the same as in the previous year.

6. *Union Committees.*—As in the previous year, Union Committees were in existence only in the Burdwan, Presidency and Orissa Divisions. The aggregate income of the 49 Unions fell from Rs. 16,754 to Rs. 15,263, and the total expenditure from Rs. 15,288 to Rs. 14,608. Twenty Unions expended the whole or nearly the whole of the allotment placed at their disposal, while nine

Committees (Memari, Srikhand, Sribati and Kotalpur, and all the five Unions of the Orissa Division) incurred no expenditure and did practically nothing during the year.

7. *Financial Results.*—The year opened with a gross credit balance of Rs. 15,61,000, and the total receipts of the 29 District Boards from all sources amounted to Rs. 68,93,000. The total amount available for expenditure was therefore Rs. 84,54,000, of which Rs. 59,08,000 were spent. The year closed with a credit balance of Rs. 25,47,000.

The table below compares the income and expenditure under the main heads of account for 1904-05 and 1905-06 :—

Income.

8. *Provincial Rates (Rs. 32,54,963).*—Excluding Rs. 11,101, which represents the income derived from this source by the Sambalpur District Council, the receipts under this head show an increase of Rs. 7,082 as compared with the previous year. As was noticed in the Resolution of last year, there is now little room for the expansion of the revenue derived from the road cess which is already levied at the maximum rate.

9. *Interest (Rs. 36,062).*—The income shows a decline of Rs. 3,698, which is ascribed generally to the reduction of the arrear demand.

10. *Police (Rs. 3,15,522).*—The income from pounds shows an improvement of Rs. 19,371, which is shared by all the Divisions ; but in six districts, viz., Birbhum, Bankura, Midnapore, Nadia, Khulna and Champaran, there was a decrease. With regard to the decline in Birbhum, the Chairman observes

that it is not due to any falling off in the competition amongst bidders; he ascribes it to the fact that persons who detect cattle trespassing, instead of impounding them, release them on payment of a small fine by the owner. It is reported that stringent orders have been issued forbidding the practice; but there is nothing illegal in the practice, and persons detecting cattle trespassing are not legally bound to impound them. It is probable that the income from pounds can be improved by the more general adoption of the system of local sales, which has already in some districts led to an increase in the revenue during the present year. The decrease in Bankura is more apparent than real, as there was no collection of advance rents as in previous years; in Champaran it is ascribed to the reduction in the indigo cultivation in that district. The total outstanding balance on account of pound rents was Rs. 26,929 against Rs. 31,814 in the previous year. It is satisfactory to notice that the District Boards of Birbhum, Darbhanga and Hazaribagh, and the Sambalpur District Council, realised the rents in full. Greater interest was on the whole shown by the members of District and Local Boards in the administration of this Department, and although it cannot as yet be considered altogether satisfactory, some advance has been made.

11. *Education* (*Rs. 46,470*).—The increase in the receipts was Rs. 6,340, which occurred under the sub-head "Contributions" and was shared by all Divisions, except the Presidency Division, where the receipts declined from Rs. 6,380 to Rs. 1,014. The decrease in the Presidency was due to the fact that in the previous year the Khulna District Board received a special contribution of Rs. 6,000 from the Khulna Coronation Committee towards the cost of opening a technical school.

12. *Medical* (*Rs. 49,179*).—Under this head also the receipts show an improvement of Rs. 13,896 under "Contributions," which includes grants from Government and subscriptions from the public. The increase was shared by all the Divisions, and was largest in Patna where the receipts rose from Rs. 4,829 to Rs. 10,244. No revenue was derived from this source by the District Boards of Nadia, Murshidabad and Hazaribagh, or by the District Council of Sambalpur.

13. *Scientific and other Minor Departments* (*Rs. 17,292*).—The income rose by Rs. 4,766, mainly under "Contributions." The receipts under "Veterinary" also show a small increase.

14. *Miscellaneous* (*Rs. 1,82,737*).—The income under this head increased by Rs. 9,878. These receipts are of a fluctuating nature, and the variation calls for no special remarks. The District Board of the 24-Parganas received for the first time Rs. 5,395 as its share of the surplus profits of the Barasat-Basirhat Light Railway. The Howrah District Board received an increase of Rs. 4,648 on its share of the surplus receipts of the Howrah-Amta Light Railway, and the Hooghly District Board received Rs. 2,341 from the Howrah-Sheakhala line.

15. *Irrigation—Minor Works and Navigation* (*Rs. 6,271*).—Only three District Boards, viz., those of the 24-Parganas, Hazaribagh and Jessore, derive any income from this source, and it is only in Jessore that the receipts are more than nominal. The income was nearly double that of last year, the increase being due to the fact that the District Board of Jessore succeeded in realizing arrears of rent for the Hallifax Canal. No account has been given of the small income of Rs. 10 shown against the Hazaribagh District Board under this head.

16. *Civil Works* (*Rupees 18,26,565*).—There was a large increase of Rs. 12,72,320 under this head, which occurred mainly under "Contributions" (Rs. 12,43,410). Under the orders of the Government of India a grant of Rs. 8,87,000 was made from Provincial Revenues to augment the resources at the disposal of the District and Local Boards. There has of late years been a tendency to impose new duties upon the Boards without providing additional funds to meet them, while there has been no corresponding expansion in the revenue assigned to them. The cesses are limited by law, and the other sources of revenue from ferries, pounds and the like are small. In order to establish equilibrium and to enable the Boards to expand their operations, a grant approximately equivalent to one-fourth of the revenues derived from Provincial Rates was sanctioned, and has been continued during

the present year. Special grants aggregating Rs. 80,205 were also made by Government for roads.

The receipts from ferries rose in sixteen districts and fell in eleven, and in the aggregate there was a small rise in the income of Rs. 5,235. The largest gains occurred in Howrah (where the income rose from Rs. 4,028 to Rs. 10,874), the 24-Parganas (Rs. 5,617) and Muzaffarpur (Rs. 16,125). These are ascribed to better settlements and better supervision. The greatest loss occurred at Darbhanga, where the income fell from Rs. 58,283 to Rs. 42,092, partly on account of the floods of August and September 1905, and partly because the security deposits of the ferries settled in 1905-06 were not paid before the close of the year.

17. *Contributions from Provincial to Local* (*Rs. 8,01,964*).—This head represents—(1) the amount (Rs. 7,15,887) drawn during the year on account of the fixed assignments to District Boards in order to establish equilibrium between the income and expenditure transferred to the Boards from the Provincial accounts and (2) sums allotted for the improvement of roads in Government estates, which amounted to Rs. 41,627. Contributions from Government for other purposes are shown in the accounts under other heads.

18. *Loans.*—No loan was taken by any District Board during the year.

19. *Deposits and Advances* (*Rs. 3,55,405*).—The receipts increased by Rs. 28,816, but the variations call for no remarks.

Expenditure.

20. *Administration* (*Rs. 2,12,717*).—The cost of office establishment increased by Rs. 6,496, while contingencies were less by Rs. 1,574. The variations were unimportant.

21. *Police* (*Rs. 24,378*).—There was an increase of expenditure of Rs. 7,455 under this head, chiefly in the Patna and Orissa Divisions. In the former Division the increase was due to the construction and repair of pound sheds, the establishment of new pounds and the payment of allowances to three post-masters for the management of the local pounds. In Orissa the inclusion of the charges incurred by the Sambalpur District Council accounts for the increase.

22. *Marine.*—No expenditure was incurred under this head by any of the District boards during the year.

23. *Education* (*Rs. 12,08,900*).—The total expenditure during the year amounted to Rs. 12,08,900, as compared with Rs 11,81,520. There was thus an increase of Rs. 27,380, which was incurred in the Presidency, Bhagalpur and Orissa Divisions, the other Divisions showing a decrease in expenditure. The Sub-Inspectors of Schools were transferred from the service of the District Boards to that of Government, with effect from the 1st January 1906, and the salaries of these officers having in consequence been paid by Government, there is an apparent decline of Rs. 25,155 in the expenditure on inspection. Rupees 1,11,608 was expended on the maintenance and management of schools, as compared with Rs. 2,66,486 in the previous year. The decrease under this head is also only apparent, and is due to an alteration in the Patna Division in the classification of the expenditure which is now shown under "Grants-in-aid." Under Grants-in-aid the expenditure rose by Rs. 2,01,064. One high school, 128 middle schools, 95 upper and lower primary schools, with 503, 8,327 and 8,480 pupils on their rolls, respectively, were maintained by the District Boards during the year. In the upper and lower primary schools aided by the District Boards 4,463 and 59,907 girls, respectively, received instruction during 1905-06.

Nine District Boards failed to spend on education the full amount assigned to them for this purpose from Provincial Revenues. This was notably the case in Howrah, Champaran, Hazaribagh and Manbhum. It is true that in all these districts the Boards incurred heavy charges on medical relief for which no grants were made by Government, but the receipts from pounds and ferries largely exceeded the revenue estimated in the settlements, and there is no reason why the full amount of the grants for education should not have been applied to the purpose. Instructions have been issued to Commissioners of Divisions requesting them to see that the expenditure of District

Boards on education is not less than the amounts assigned by Government for the purpose.

24. *Special Schools.*—Technical or industrial schools are maintained by the District Boards of Burdwan, Midnapore, Khulna, Ranchi, Hazaribagh and Manbhum. No mention is made in the Commissioner's report of the industrial school which was maintained by the Balasore District Board during the previous year. The Bhagalpur District Board decided during the year to establish a school, which has now been opened, and the proposal of the District Board of Monghyr to open a technical school is under the consideration of the Education Department. The management of the technical school at Midnapore has not been altogether satisfactory, and the Government grant has in consequence been suspended since April 1905. The buildings and accommodation are very unsuitable; and the Director of Agriculture, who recently inspected the school under the orders of Government, has now recommended that it should be transferred to a new site near the college where suitable buildings should be erected, and that the management should be placed in the hands of a Committee of which the Magistrate should be the *ex-officio* President. The seri-agricultural school at Sabong, in the Midnapore district, had on its roll only four pupils against six and eight in the two preceding years. A school-house was constructed during the year, with quarters for the teachers, and also a nursery and plant for the manufacture of silk. Besides the technical schools maintained by the Boards mentioned above, several District Boards provided scholarships for pupils under instruction at the Sibpur and Bihar Engineering Colleges, and at the Jaipur Art School. On the whole, unfortunately, it must still be said that little progress has as yet been made in the development of technical and industrial education. The schools established by the Boards have not received the support from the public which might have been expected.

25. *Industrial development.*—On the whole little success has attended the efforts of the District Boards to introduce the fly-shuttle loom The Commissioner of Burdwan however reports that the interest now aroused in the country in the improvement of the textile industry has induced many people to set up these looms in various parts of the Midnapore district, and that many weavers who had sought employment in other industries have returned to their looms. The fly-shuttle loom was extensively used in the Hooghly district, and a few Japanese and other looms of improved pattern were also brought into use during the year. Besides cloth, other articles of less importance, such as nibs, pen-holders, brushes, blacking, bronko and blanko, are also being manufactured in this Division in small quantities. In the Bhagalpur Division, the weaving class started by the Monghyr District Board was continued during the year, and four students who had learnt the use of the loom set up looms of their own on leaving. There were six students on the rolls at the close of the year, and eight prisoners from the local jail also received instruction. Sixteen students are shown on the rolls of the weaving school maintained by the Manbhum District Board, but it is reported that the pupils who have completed the course of instruction are unable to purchase improved looms and still continue to use looms of the old pattern. The District Board agreed to advance two-thirds of the cost of looms and to charge no interest on the advance, but up to the present the offer has not been accepted. The question is one of considerable importance, as it is obviously useless to instruct persons in the use of the fly-shuttle loom who will subsequently have no opportunity of applying the experience they may have gained, and it is difficult to believe that it is want of money only which prevents the weavers who have been instructed from making use of the improved loom.

An agricultural and industrial exhibition was held at Midnapore, at which samples of rice, hemp, tobacco, cotton, potato, jute and of different kinds of vegetables which were experimentally cultivated in the garden attached to the Seri-Agricultural School at Sabong were exhibited. The exhibits obtained a silver medal, a first class certificate and a prize of Rs. 10. The school has, it is reported, created among the cultivators a desire to grow potatoes on an extensive scale. Improved fly-shuttle looms were exhibited at the Sonepur fair and also at the Muharrum fair held at Darbhanga.

26. *Medical* (*Rs. 3,18,029*).—The expenditure increased by Rs. 56,310. The outlay on hospitals and dispensaries rose by Rs. 26,835, that on sanitation and vaccination by Rs. 6,612, and that under "Miscellaneous" by Rs. 9,646. The total number of dispensaries maintained by the Boards was 119 against 110 in the previous year, and the number of aided dispensaries rose from 133 to 137. Two new dispensaries were opened by each of the District Boards of Burdwan and Hazaribagh, and one each by the District Boards of Hooghly, Patna, Muzaffarpur, Darbhanga, Palamau and Manbhum. The Gaya District Board closed one of its dispensaries during the year. The Patna District Board maintained the largest number of dispensaries (11), besides contributing Rs 500 a month to the Bankipore dispensary; the Burdwan District Board maintains ten, of which no less than five have been opened in the past two years. No dispensaries were maintained by the District Boards of Bankura, Murshidabad and Sambalpur. The Shahabad District Board contributed Rs. 20,000 towards the cost of erecting a new hospital building at Arrah.

27. *Sanitation.*—The Patna system of village sanitation, though tried in all the Divisions, hardly proved the success that was anticipated. It is practically only in the district of Patna itself that the work was carried out, on a systematic plan, in accordance with the programme drawn up by the Local Boards. In this district 181 insanitary villages were cleansed at a total cost of about Rs. 2,500 The Shahabad District Board spent over Rs. 2,123, but it is reported that the supervision was inadequate and that the value of the work done was small. In Champaran only Rs. 4 was spent under this head, and in Muzaffarpur and Darbhanga no expenditure at all was incurred. The reports from the other Divisions are even more discouraging. In the Burdwan Division the total expenditure was only Rs. 2,800, and, with the single exception of the District Board of Midnapore, very little interest in the matter was shown by the Boards. In the Chota Nagpur Division no expenditure was incurred; but it must be remembered that in this Division most villages have the advantage of a good natural system of drainage. In the Presidency Division only the sum of Rs. 100 was spent in Murshidabad, no expenditure being incurred in Nadia, Jessore or Khulna. Considering the unhealthy reputation of these three districts, it is strange that the local authorities should be so apathetic. In the Bhagalpur Division the total expenditure was Rs. 1,095, practically the whole of which was incurred in Monghyr where 47 villages were cleansed. In the Orissa Division no expenditure was incurred during the year on village sanitation in Puri or Balasore. In Cuttack, the Sadar Local Board spent a sum of Rs. 370 in looking after the sanitation of four typical villages, and it is reported that the Jajpur Local Board spent a sum of Rs. 500 in improving the sanitation of 109 villages in that subdivision. Considering that this represents an average expenditure of a little under Rs. 5 a village, it is improbable that the results obtained were of much value. Unless and until members of District and Local Boards and Union Committees are themselves prepared to see that the work is carried on in a systematic manner and to supervise it themselves while in progress, little or no success in this direction can be expected.

28. *Veterinary charges* (*Rs. 28,740*).—The total expenditure increased by Rs. 9,560, and all District Boards, with the exception of Howrah, Jessore and Sambalpur, incurred expenditure under this head. At Khulna the District Board opened a veterinary hospital; the Cuttack District Board opened a hospital attached to the existing dispensary; and the Manbhum District Board established a dispensary. The Veterinary Assistant attached to the Monghyr Dispensary visited 64 villages and treated 1,149 animals. Satisfactory work was also done in Muzaffarpur. About five hundred cattle were inoculated with the anti-rinderpest serum in the districts of Burdwan, Midnapore and Monghyr; but the Commissioner of Burdwan reports that the endeavours of a Veterinary Assistant to inoculate cattle in the interior of Birbhum proved futile, owing to the prejudice of the people against the operation. The Lieutenant-Governor is however glad to find from the large number of cases brought under treatment in the dispensaries that their popularity is increasing, and that the people have begun to appreciate the method of treatment followed by the Veterinary Assistants. Several District Boards granted scholarships tenable at the Veterinary College.

29. *Civil Works (Rs. 36,10,384).*—The expenditure shows a large increase of Rs. 3,92,403, which occurred mainly under "communications" (Rs. 2,89,999), buildings (Rs. 36,459), water-supply (Rs. 43,754) and establishment (Rs. 31,192). The Boards maintained 2,590 miles of metalled and 18,567 miles of unmetalled district roads, and 14,030 miles of village roads.

Details of the more important works executed during the year are given in the Commissioners' reports. Several large bridges were built in the districts of Gaya, Shahabad, Champaran, Muzaffarpur, Darbhanga, Saran, Monghyr, Bhagalpur and Purnea, and important roads were made in the districts of the 24-Parganas, Nadia, Ranchi, Gaya, Shahabad, Muzaffarpur, Darbhanga, Saran, Champaran, Monghyr, Bhagalpur and Purnea.

30. *Water-supply and Water-works.*—The total expenditure on the improvement of water-supply increased by Rs. 43,754, or 68 per cent., the increase being shared by all the Divisions, except Burdwan; the District Boards of Champaran, Muzaffarpur and Darbhanga incurred no expenditure under this head, while only Rs. 15 was spent by the District Council of Sambalpur. The returns from the Burdwan Division are disappointing, the figures indicating a further falling off in the activity of the Boards in all the districts, except Burdwan and Midnapore. In Bankura, out of a budget grant of Rs. 10,000, only Rs. 2,419 was spent, and in Howrah, out of a provision of Rs. 3,000, only Rs. 464 were spent. The Commissioner reports that no explanation of this has been given. Similarly, in Midnapore, out of an allotment of Rs. 11,417, only Rs. 3,854 was spent, and in Hooghly practically nothing was done. The Chairman of the Hooghly Board has reported that, while considerable sums are being spent in excavating tanks and wells, no care is being taken in maintaining, repairing and periodically cleaning them, most of the wells having been utterly neglected. A difficulty with which the local authorities have to contend is the condition that no contribution is as a rule made by Government, unless an equivalent amount is collected by subscriptions from the public. It does not, however, appear advisable to relax this condition at present, as the essence of Local Self-Government is that Government gives assistance to those who are willing and ready to help themselves. As it has been decided in some cases that the required contribution may be paid in labour instead of in hard cash, there is no reason for supposing that the villagers are unable to make any contribution for this purpose. Another difficulty, and one which in some cases has been found to be almost unsurmountable, is the unwillingness of the people to part with their rights or ownership over existing sources of water-supply. The law as it now stands forbids any expenditure from the District Fund on private property, but in the Bill to amend the Local Self-Government Act provision has been made to legalize such expenditure in cases where owners are unwilling to surrender their proprietary rights.

31. *Drainage.*—The only expenditure under this head was incurred in three districts of the Presidency Division. Detailed plans and estimates of the cost of the project for excavating the old bed of the river Kausiki in the Hooghly district have now been prepared, and steps are being taken for the acquisition of the land required for the work. The scheme, when carried out, will greatly improve both the drainage and the water-supply of a large area. In the 24-Parganas work was in progress on the Magrahat-Usti scheme, referred to in last year's Resolution, and an application was also made by the District Board under the Sanitary Drainage Act for the improvement of the beds of the Nawai and Sunti rivers in the Baraset subdivision. This scheme is at present under the consideration of the local officers of Government. In Jessore Drainage Commissioners have been appointed under the Sanitary Drainage Act for the improvement of the river above the town. The latter portion of the scheme is to be carried out by the District Board. Another scheme for the re-excavation of the Muchikhali khal is pending before the District Board. In Khulna the Bengal Sanitary Drainage Act was applied to an area of 3½ square miles in and about the Bagerhat station road, and the Drainage Commissioners appointed under the Act are considering the project.

32. *Roads.*—The total length of metalled roads maintained by the several District Boards increased by 65 miles, of unmetalled roads by 218 miles, and of village roads by 252 miles. The expenditure on the repairs of metalled

roads was nearly 8 lakhs of rupees; in the case of unmetalled roads it amounted to about 6½ lakhs; while for village roads it was nearly 2 lakhs. The average expenditure per mile on metalled roads was Rs. 302, on unmetalled roads Rs. 35, and on village roads Rs. 13. The cost of repairs per mile of metalled road varied from Rs. 306 in the Presidency Division to Rs. 189 in Chota Nagpur. In the latter Division the cost has risen by Rs. 73 a mile as compared with last year, but no explanation of the increase is given. In the case of unmetalled roads the cost was between Rs. 41 in the Burdwan Division and Rs. 28 in Bhagalpur. The expenditure on original works connected with metalled roads exceeded 2¼ lakhs, while over 8½ lakhs were expended on unmetalled and about Rs. 36,000 on village roads.

33. *Railway Feeder Roads.*—The Burdwan District Board undertook the construction of two important feeder roads and the metalling of a third. In Birbhum the construction of four roads was undertaken, whilst in Bankura four such roads were completed and the work on a fifth road was in progress. The Midnapore District Board completed one road, and were engaged in the construction of three other roads. In Hooghly work was in progress on three roads; the Howrah District Board expended Rs. 9,190 on this account; and the District Board of the 24-Parganas spent Rs. 19,024 on the construction or metalling of six feeder roads. In Gaya land was acquired for four feeder roads, and three were completed during the year; and in Darbhanga one road was under construction. The Muzaffarpur District Board completed one important feeder road, and two more were in course of construction. In Monghyr work continued on four important roads, which were estimated to cost Rs. 1,35,220, and was nearly completed, except on one. The Bhagalpur District Board commenced work on one road, and have in contemplation the construction of two other roads. In Cuttack seven small feeder roads were constructed during the year, and one each in Puri and Balasore. The Lieutenant-Governor notices with satisfaction the progress that is being made.

34. *Miscellaneous Improvements.*—In Resolution No. 3042, dated the 18th November 1905, Government laid down certain general principles designed to ensure the maintenance of a continuous and intelligent line of action in promoting road-side arboriculture, and directed that the Director of Agriculture shall be the central authority to arrange for the supervision of the arboriculture work of the District Boards. In all the Divisions, except Burdwan, programmes and working-plans for road-side arboriculture have now been drawn up, and work is being carried on in accordance with them. The total expenditure amounted to Rs. 29,233, and the receipts obtained by the Boards from the sale of fruits and timber is reported to be Rs. 5,501. Nothing was spent under this head in Jessore during the year, and no explanation of this is given.

35. *Railways and Tramways.*—No new lines were constructed during the year. But several projects are being considered. A proposal to construct a light railway from Memari to Chakdighi in the Burdwan district was under the consideration of the District Board. Statistics are also being collected for a light railway on the Arrah-Sasaram road, in the Shahabad district. A project for a line from Krishnaghar to Jellinghi was worked out at a cost of Rs. 9,800, and the scheme is now under the consideration of the Nadia District Board.

The Howrah-Amta, the Howrah-Seakhala, the Bukhtiarpur-Bihar and the Baraset-Basirhat light railways, which were referred to in the last year's Resolution, continued to work satisfactorily. The Boards' shares of the surplus profits in 1905 were—

	Rs.
Howrah District Board	39,563
Hooghly „ „	2,419
Patna „ „	90
24-Parganas „ „	5,395

Provision has been made in the Bill for the amendment of the Local Self-Government Act, which was introduced in Council on the 10th November 1906, to enable District Boards to levy under certain specified conditions a special cess for the payment of guaranteed interest on capital, or of interest

due to Government for loans raised for the construction of tramways and light railways.

36. *Contributions* (Rs. 42,443).—This item mainly represents the payments made by District Boards for establishments in offices of account and control, and refunds of unexpended portions of Government grants for special works.

37. *Debt (Rs. 3,43,052).*—The charges declined by Rs. 46,162. The fluctuations under this head are unimportant.

38. *Closing Balances (Rs. 25,46,922).*—The actual closing balances of the District Boards, excluding deposits, amounted to Rs. 23,68,683 against Rs. 14,25,099 at the end of the previous year. The aggregate of the minimum working balances fixed for District Boards under the Account Rules amounts to about 4½ lakhs; the actual balances at the close of the year were therefore more than four times in excess of the prescribed minimum. In the Patna Division the closing balance has been steadily rising since 1901, and it now stands at nearly Rs. 10,00,000. Darbhanga is responsible for the heaviest balance, viz., Rs. 2,09,800, and it is reported that much of this was due to failure on the part of the District Board to work up to the sanctioned programme for civil works. In Gaya the unexpended balance under the head "Civil Works" amounted to Rs. 1,01,552, the short expenditure being attributed by the District Engineer to failure of contractors in certain cases, to delay in the proceedings for acquiring land in others, and also to delay in obtaining the requisite sanction of higher authority to estimates for large works for which allotments were made in the budget. In Saran also the large balance is accounted for by the fact that the full allotment for civil works was not spent, the actual expenditure amounting to Rs. 1,39,700 as against the budget allotment of Rs. 2,31,846. The general result in the Presidency Division was also unsatisfactory, the closing balance having increased by Rs. 1,38,532. The large closing balance in Purnea in the Bhagalpur Division (Rs. 85,063) is also noticeable. In the Burdwan Division the actual closing balance rose from Rs. 2,06,196 to Rs 3,89,755. This failure on the part of the District Boards to work up to their sanctioned programmes is disappointing, though possibly it was for the most part unavoidable. Every effort should now be made to reduce these large balances. It was perhaps only to be expected that, considering the large amounts which have recently been placed at their disposal by Government, the Boards should have found some difficulty in arranging for the expenditure of these sums, but there can be no lack in any district of projects on which money can suitably be spent. The improvement of communications in connection with the rapidly extending railway systems of the country and of the water-supply and sanitation in the interior are objects on which practically unlimited expenditure might be usefully incurred. The Boards have now had time to mature their projects, and it is confidently expected that they will utilize to the fullest and to the best advantage their resources which are so greatly improved.

39. *Amendment of the Bengal Local Self-Government Act, 1885.*—A revised Bill to amend the Act was introduced in the Bengal Legislative Council last November. The Bill has been published in the *Calcutta Gazette* and circulated to all recognized associations and public bodies for opinion.

By order of the Lieutenant-Governor of Bengal,

H. J. McINTOSH,

Offg. Secretary to the Govt. of Bengal.

RESOLUTION ON THE FINAL REPORT ON THE SURVEY AND SETTLEMENT OPERATIONS IN THE MAKSUDPUR ESTATE IN THE DISTRICT OF GAYA.

REVENUE DEPARTMENT—LAND REVENUE.

Calcutta, the 12th January 1907.

RESOLUTION No. 251.

READ—

Letter No. 20528., dated the 11th August 1906, from the Director of Land Records, Bengal, submitting, with his remarks, the Final Report on the Survey and Settlement Operations in the Maksudpur Estate in the district of Gaya.

Previous history.—The Maksudpur Estate originally formed part of the Tikari Raj in the district of Gaya. The late Raja Rameswar Prasad Narayan Singh was the direct descendant of Fateh Narayan Singh, the predecessor of Pitambar Singh, who first obtained the title of Raja, in consideration of the help given by him against Kasim Ali. The title of Raja was continued to his son, Todal Narain Singh, who died in the year 1856, leaving a daughter who had married Gajadhar Prasad Narain Singh of the Chainpur family in the district of Saran. Their son, the late Rameswar Prasad Narayan Singh, attained his majority in the year 1859 and was made a Raja in the year 1891.

2. *Reason for undertaking the operations.*—Since the year 1889, the local officers had repeatedly drawn attention, in their annual administration reports, to the existence of strained relations between the Raja of Maksudpur and his tenants. It was not, however, apparent at first whether the fault was on the side of the Raja or of the tenants, but enquiries showed that from the year 1898, owing, presumably, to pressing financial difficulties, the Raja had adopted oppressive and tyrannical means of increasing the income of his estate. As a result of his oppressive measures, many tenants left their ancestral villages to find new homes in the neighbouring zamindaris, while those who remained were gradually impoverished, till village after village was deserted, and the very name of "Maksudpur" became a synonym for tyranny and oppression throughout the district. For some time, the Collector of Gaya and the Commissioner of the Patna Division had advised the Raja to reform his administration or to appoint a competent Manager with effective powers to do so, but he only made promises which he never fulfilled. Inquiries were again instituted by the Collector, and these proved that the Civil and Criminal Courts failed to secure protection to the rights and property of the tenants. Government accordingly gave orders, under section 101 (2) (*b*) of the Bengal Tenancy Act, for the survey and preparation of a record-of-rights of the estate.

3. *Area of the estate and duration of the operations.*—The area of the Maksudpur Estate is 130 square miles comprised in 160 villages. Survey and settlement operations were actually started in September 1900, and finished in September 1903, except for recovery of costs, which was completed in August 1904. The task of the survey and settlement staff throughout the operations was one of exceptional difficulty. During traverse survey, there was no correct information as to what villages belonged to the estate, and the estate officials either would not, or could not, give any assistance. Again, when cadastral survey and record-writing had begun, plague broke out in many of the villages, and many tenants migrated temporarily to other parts of the district; while those who stayed took little interest in the work. Further, during the settlement part of the proceedings, the Revenue officers were not only confronted with a large number of internal disputes of considerable difficulty, but had to make very careful enquiries as to the tenants whose names had been suppressed in respect of lands claimed to be the proprietor's private lands. At attestation, for instance, the Settlement Department had great trouble in finding the rent payable by the tenants, inasmuch as the rents stated by the tenants were,

as a rule, absurdly low and were calculated at various imaginary rates on the area they claimed to hold on cash rents. The tenants on the one hand, not only failed to produce receipts, but declared that they had none, and, on the other, the landlord's papers showed rates and rents that had never been collected.

4. *Cost of the operations and apportionment and recovery of cost.*—The actual gross expenditure incurred on the operations was Rs. 84,516, against which is to be set off miscellaneous receipts on account of Court-fees, etc., amounting to Rs. 9,512. Thus the net cost of the operations amounts to Rs. 75,034, and gives an incidence of Rs. 577 per square mile, or 14 annas 5 pies to the acre. The cost-rate is high, but in view of the exceptional difficulties of the work noticed in paragraph 3 above, the Lieutenant Governor agrees with the Director of Land Records that the work could not have been completed more economically or in a shorter time.

5. As is usual in proceedings undertaken under section 101 (2) *b* of the Bengal Tenancy Act, funds for the work were advanced by Government in the first instance. Inasmuch as the entire responsibility for the state of things which led to the initiation of the operations rested on the Raja, it was ordered, under section 111 of the Act, that quarterly bills of cost should be presented to the Raja for payment. Great difficulty was experienced in obtaining these payments, and not only was recourse to the certificate procedure necessary, but on more than one occasion coercive measures were taken for the realisation of the amounts, and even in September 1903, when the work was actually completed, there was still a considerable amount outstanding. In the meantime, however, the Raja died, and the Rani succeeded to an estate not only heavily burdened with debt, but also the subject of expensive litigation owing to a claim to the succession to the estate by the late Raja's brother. In the circumstances, Government acceded to her request that a share of the costs should be realised from the tenants, and directed that the raiyats should pay at the rate of 3½ annas per acre. Further, in the case of villages let out in perpetuity, orders were issued that the permanent tenure-holders should pay 7½ annas per acre of the Rani's share.

6. *Results of the settlement and value of the record-of-rights.*—The grievances of the tenants, which it was intended to remedy by the preparation of a record-of-rights, were the uncertainty of their tenancies, the exorbitant cash rents demanded and the oppressive system of appraisement of produce rents. In the end, out of 11,690 tenants, 11,466 have been recorded as holding either as rent-free holders, raiyats at fixed rates or occupancy raiyats. Each tenant also has now been granted a *khatian* in which every plot which forms a part of his holding is recorded and against each plot is noted whether the landlord is entitled to demand a cash or produce rent, the manner in which appraisement is customarily made, the various payments due to the persons concerned therein, the respective shares of the landlord and tenant in the produce and the rights and the duties of landlords and tenants in respect of irrigation. The Raja's exorbitant demands in regard to cash rents have thus been to a large extent cut down, and comparatively reasonable rents and rates of rent at which the tenants are liable to pay have been fixed.

7. *Irrigation and produce rents.*—The main difficulty in the way of successful management of the estate lies in the fact that the system of produce rents prevails throughout, that much of the land depends on irrigation, and that water is obtained for the most part, not from wells or reservoirs supplying the fields in their immediate neighbourhood, but from rivers by means of long distributary channels supplying a large number of villages. The maintenance of such channels and the distribution of the supply of water to individual cultivators can be controlled only by the landlord or by the State. Hitherto the State has refrained from interference, and the landlord could only be induced to discharge his duties efficiently by being immediately interested in the actual success of the crops. Government has at present under consideration a legislative measure by which it is proposed to empower Collectors to control the management of private irrigation works; but until this proposal is given effect to, it is not possible to commute all produce rents and thereby remove all evils attending the system.

8. *Questions for special consideration.*—The remarks and suggestions of the Settlement Officer and the Director of Land Records regarding (1) the revision of the records of the estate when the district of Gaya is brought under survey, (2) the fixity of rents settled under section 40 of the Bengal Tenancy Act, (3) the improvement of the machinery for official appraisement of produce rents, (4) the Court-fee to be paid on a dispute under section 106 of the Bengal Tenancy Act, and (5) the reproduction of the village maps of the estate, will be separately considered.

9. *Services of officers.*—The thanks of the Lieutenant-Governor are due to Mr. J. H. Kerr for his control of the operations at the early stages, to Mr. Coupland for having brought this difficult work to a successful close and for his excellent report, and to the Directors of Land Records, Messrs. Lyon, Allen and Maddox, for their careful supervision of the work. His Honour notices with satisfaction the remarks of the Settlement Officer in regard to the good work done by Babu Bhupendra Nath Gupta, Mr. S. S. Dey and Maulvi Makimuddin Ahmed. In conclusion, Sir Andrew Fraser desires to record his appreciation of the services rendered by Mr. C. E. Oldham in this connection. After a long, careful and tedious enquiry, he brought to the notice of Government the real state of affairs in the estate, and throughout the operations readily co-operated with the settlement staff, and helped them with his advice on all questions of difficulty.

ORDER.—Ordered that this Resolution be published in the *Calcutta Gazette*, and that a copy of it be forwarded to the Appointment Department of this Government.

By order of the Lieutenant-Governor of Bengal,

R. W. CARLYLE,

Chief Secy. to the Govt. of Bengal.

SUMMARY OF THE RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE MONTH OF DECEMBER 1906.

The rainfall in December was scanty. Rain fell in a few scattered showers only in Orissa and Chota Nagpur. The averages for South-West Bengal and Bihar are nil.

Expressed as a percentage, South-West Bengal received 85 per cent. of the normal, Bihar 96 per cent., Orissa 82 per cent., and Chota Nagpur 92 per cent. during the year.

The following table compares the rainfall in the four divisions during November, with the normal fall, the actual being given as a percentage of the normal. The table also shows the actual falls for each of the previous months of the year, expressed in the

same notation, and the last column of the table shows the total rainfall of the past twelve months of the year :—

Meteorological Divisions.	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December.	Actual rainfall of first twelve months expressed as a percentage of the normal rainfall for the period.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

, dew.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 18th January 1907:—

NO. 1 OF 1907.

A Bill further to amend the Coroners Act, 1871, and the Prisoners Act, 1900.

WHEREAS it is expedient further to amend the Coroners Act, 1871, and the Prisoners Act, 1900; It is hereby enacted as follows:— IV of 1871. III of 1900.

1. This Act may be called the Coroners (Amendment) Act, 1907. Short title.

IV of 1871. 2. In section 9 of the Coroners Act, 1871, for the word "buried" the words "disposed of" shall be substituted. Amendment of section 9, Act IV, 1871.

3. To section 15 of the said Act the following shall be added, namely:— Addition of proviso section 15, Act IV of 1871.

"Provided that the Coroner may dispense with a view of the body, if he is satisfied, from medical evidence or certificates, that death was due to some infectious disease."

4. In section 17 of the said Act, for the words and figures "Act No. XV of 1869 (*to provide facilities for obtaining the evidence and appearance of prisoners and for service of process upon them*)," the words and figures "Part IX of the Prisoners Act, 1900," shall be substituted. Amendment of section 17, Act IV of 1871.

5. After section 18 of the Coroners Act, 1871, the following shall be inserted, namely:— IV of 1871. Addition of new section 18A, Act IV of 1871.

"18A. Any document purporting to be a report under the hand of any Chemical Examiner or Assistant Chemical Examiner to Government upon any matter or thing duly submitted to him for examination or analysis and report in the course of any proceeding under this Act, may be used as evidence in any inquest under this Act." Report of Chemical Examiner. [*Cf.* Act V of 1898, s. 510.]

6. To section 21 of the said Act the following shall be added, namely:— Addition to section 21, Act IV of 1871.

"and the whole, or such part thereof as to the Coroner seems fit, shall be recoverable in the same manner as a fine imposed under section 31."

7. For section 25 of the said Act the following shall be substituted, namely:— Substitution of new section 25, Act IV of 1871.

"25. When the jury or majority of the jury find that the death of the deceased person was occasioned by the criminal act of another, the Coroner shall immediately after the inquest forward a copy of the inquisition to the Commissioner of Police." Procedure where death is found due to a criminal act.

8. For section 26 of the said Act the following shall be substituted, namely:—

Substitution of new section 26, Act IV of 1871.

"26. The Coroner may also, where the verdict justifies him in so doing, issue his warrant for the apprehension of the person accused and send him forthwith to a Magistrate empowered to commit the accused for trial."

Power to arrest and commit for trial.

9. Section 27 of the said Act is hereby repealed.

Repeal of section 27, Act IV of 1871.

10. In section 28 of the said Act, for the word "burial" the word "disposal" shall be substituted.

Amendment of section 28, Act IV of 1871.

11. In section 11 of the Prisoners Act, 1900, for the words "Justice of the Peace or Coroner" the words "or Justice of the Peace" shall be substituted.

III of 1900.

Amendment of Act III of 1900, section 11.

STATEMENT OF OBJECTS AND REASONS.

THE main object of this Bill is to repeal section 27 of the Coroners Act, 1871, and to amend sections 25 and 26 of the said Act and section 11 of the Prisoners Act, 1900, so as to withdraw the power of the Coroners of Calcutta and Bombay to commit accused persons to the High Court or to jail pending trial and to take bail for their appearance before that Court while leaving the Coroners power to arrest the accused and send him forthwith to a Magistrate empowered to commit him for trial. As shown in the cases of *Queen-Empress* v. *Mahomed Rajudin* (1890), I. L. R. 16 Bom. 159, and *Emperor* v. *Jogessur Passi* (1903), 7 C. W. N. 889, practical difficulties have arisen, both in Bombay and Calcutta, from the co-existence of two jurisdictions in these matters, namely, that possessed by the Coroner, and that possessed by the Chief Presidency Magistrate; and it is proposed to overcome such difficulties by depriving the Coroner of the authority now vested in him to commit accused persons to the High Court and to commit accused persons to prison. Thus the Magistrate alone will exercise jurisdiction in these matters at the instance of the Commissioner of Police or when the accused has been sent to him under arrest by the Coroner.

2. At the same time it is proposed to take the opportunity of bringing the Coroners Act up to date and of remedying certain minor defects in its working. An explanation of the changes proposed will be found in the subjoined *Notes on Clauses*.

The 5th January 1907. H. ADAMSON.

Notes on Clauses.

Clause 2.—This alteration is intended to include other methods of disposing of the corpse than by burial such as exist in Bombay and elsewhere.

Clause 3.—This proviso is to meet difficulties experienced in procuring the inspection by juries of the dead bodies of persons who have died of plague, small-pox and other infectious diseases.

Clause 4.—Act XV of 1869 was repealed by Act III of 1900 which took its place.

Clause 5.—There is no reason why the report of a Chemical Examiner to Government should not be in itself as sufficient evidence in inquests as it is in inquiries and trials under the Criminal Procedure Code. The proposed new section will save delay in the proceedings and harassment to the Chemical Examiner.

Clause 6.—The Act at present lays down no procedure for the recovery of forfeited recognizances. It is proposed that they should be recovered in the same manner as fines imposed by the Coroner.

Clause 7.—The police, who in all cases would be simultaneously holding an investigation, have all the necessary powers of arrest and of securing attendance before the Presidency Magistrate. It is not necessary, therefore, that the Coroner should do more than forward the inquisition to the Commissioner of Police.

Clauses 8 and 9.—The object of the amendment of section 26 and repeal of section 27 has been shown above.

Clause 10.—The word "burial" in section 28 seems to be due to a too close imitation of the English law, overlooking the Hindu custom of cremation.

Clause 11.—The object of the proposed amendment of section 11 of the Prisoners Act, 1900, has been already explained.

J. M. MACPHERSON,
Secretary to the Government of India.

Boston island, Kangaroo Reef.

A Cheese-shaped Buoy, painted black, surmounted by a Staff and Diamond, has been placed on the north-eastern extremity of Kangaroo Reef, Boston island, near Port Lincoln, in five (5) fathoms at L.W.S., the shallowest part of the reef bearing from it south, distant two (2) cables.

Approximate position—Lat., 34° 40′ 10″ S.; long., 135° 55′ 40″ E.

This affects Admiralty Charts Nos. 2389b and 784.

Kangaroo island, Nepean Bay.

A Pile Beacon with circular red top has been placed in 5 feet of water at L.W.S. on the eastern extremity of the Spit, off Kingscote, Kangaroo island.

Approximate position—Lat., 35° 39′ 15″ S.; long., 137° 41′ 40″ E.

This affects Admiralty Chart No. 2389a.

AUSTRALIA, SOUTH—Gulf of St. Vincent.

Port Wakefield—Date of alteration of lights.

No. 12 (third publication).—With reference to Notice to Mariners No. 94, dated 9th March 1906, issued by this Office, the President of the Marine Board, Port Adelaide, has given further notice (No. 25 of 1906) informing Masters of vessels, Pilots and others that the Port Wakefield lights will be altered on the 19th November 1906, and will, on and after that date, show as mentioned hereunder:—

The present White Light on the end of the Wharf will be moved about three (3) feet westward, and be changed to a Red Light. The existing Red Light at the back will be changed to a bright light. These lights in line will lead midway between the two Outer Beacons instead of along the Eastern side of the channel, as at present.

This affects Admiralty Chart 2389b and Plan 2152.

AUSTRALIA, SOUTH.—Port Adelaide River.

Outer harbour.—Signals to be observed at the Occulting buoy.

No. 13 (third publication).—The President of the Marine Board, Port Adelaide, has given notice (No. 27 of 1906) that Masters of Vessels, Pilots, and others about to enter the Port Adelaide river, shall, when at the Occulting Buoy, signal the dredgers by one prolonged blast of *30 seconds duration* on the whistle or syren, and repeat it every minute until such signal is answered from the dredgers. Vessels bound outwards shall give the same signal when abreast of No. 3 Light Beacon. Every dredger will repeat the above-mentioned signals if steam is up. If steam is not up then by waving a flag *by day* or a white light *by night*, and at the same time haul to one side of the fairway, and show the proper signals.

Masters and Pilots are cautioned to keep, as near as possible, on the line of leads so as not to pass the dredgers too close, and will also reduce speed when approaching and passing them.

This affects Admiralty Charts 2389*a* and *b*, and 1750 and 1752.

RESOLUTION.

READ—

Administration Report of the Commissioners of the Port of Calcutta, for the year 1905-06.

Revenue Receipts and Expenditure.

The income of the year 1905-06 amounted to Rs. 89,55,395, against Rs. 89,10,114 in 1904-05. The expenditure amounted to Rs. 86,64,987. The balance of receipts over expenditure during the year after deducting Rs. 332 under the bad debt account in respect of transactions previous to 1st April 1905 was Rs. 2,90,076. Adding this amount to the accumulated balance of previous years, the total surplus revenue on the 31st March 1906 was Rs. 31,60,501.

Disposal of Surplus Revenue.

2. Of this surplus revenue, Rs. 25,98,384 have been set aside as a Revenue Reserve Fund, Rs. 1.51,531 have been contributed for Capital outlay, Rs. 1,67,365 have been allotted to the Fire Insurance Fund, and Rs. 2,43,221 have been carried forward against miscellaneous advances and outstanding earnings.

3. A sum of Rs. 53,96,905 was spent on various new works; the following are some of the more important works completed or in progress during the year:—

Capital outlay.

A four-storied warehouse at the Jetties.
Eighteen hydraulic cranes for handling cargo from and into vessels.
The second graving Dock.
An additional coal berth.
A new crane dredger and twelve mud punts.
Reconstruction of Jetty No. 2, and extension of jetties to provide for two additional berths.
Improvement of the Port Trust Railway.
Extension of the hide depôts.
Remodelling of the petroleum wharf at Budge-Budge.
Construction in England of the suction dredger *Sandpiper*.

4. The capital debt of the Trust on 31st March 1906 was Rs. 5,30,41,456. Against this debt, the Commissioners hold properties, including works in progress, stock of stores and materials, cash and securities in hand, aggregating Rs. 7,12,67,008; this does not include the value of the Strand Bank and Howrah Foreshore lands, the capitalized value of which, at present rates of rent, amount to a considerable sum. Sinking Funds amounting to Rs. 52,36,612 have been accumulated by annual contributions from revenue for the repayment of the debenture loans and may also be treated as an asset. The position of the Commissioners in respect of their debt is therefore satisfactory.

5. In addition to the Revenue Reserve Fund and Sinking Funds, the Commissioners have a Depreciation Fund for vessels and plant, and a Fire Insurance Fund. The addition made to the Depreciation Fund during the year amounted to Rs. 1,37,124; a sum of Rs. 76,481 had to be withdrawn to meet capital expenditure chargeable to the fund, leaving a balance of Rs. 8,29,392 at the close of the year. The sum at credit of the Fire Insurance Fund at the close of the year was Rs. 5,99,935.

Depreciation and Insurance Funds.

6. The following table shows the details of the receipts and charges of the Revenue account for the year under review as compared with similar figures of the previous year:—

In May 1905 reductions in the charges for night work, and for shipping and landing certain classes of goods were granted. During the year the saving to the trade by these reductions amounted to Rs. 3,04,900, while, had the rates

current in 1902 for services rendered generally been still in force, the receipts for 1905-06 would have been increased by Rs. 10,80,000 on the volume of the trade of the year.

The receipts from river dues show a decrease by Rs. 70,809 this year. They exceed, however, the receipts, of the year 1903-04 by Rs. 3,90,141. The question of treating these dues as a permanent source of income is under consideration.

The Railway receipts which fell off during 1904-05 show a considerable increase. This is due mainly to the large increase in exports of coal; there was also a reduction in the hire of rolling stock from foreign railways.

The decrease in the receipts from the wet docks is stated by the Commissioners to be due to reductions in rates to the amount of Rs. 3,:6,637.

The dry dock continues to give a good return on the Capital cost. The surplus on the year's work was Rs. 1,57,252, or 18 per cent. on the Capital outlay of Rs. 8,65,818.

The exports over the Dock quays aggregated 3,348,802 tons, against 3,326,370 tons in 1904-05. The principal increases are under the heads, coal, jute and cotton.

The export of coal was the highest on record, being 23 per cent. in excess of the shipments in 1904-05, which in turn were 25 per cent. more than the previous record year of 1903-04. The Imports landed at the docks showed a great increase, the total quantity of goods so imported being 206,432 tons, against an average of 15,613 tons during the past five years. This increase is chiefly in the items "Salt," "Sugar" and "Sleepers."

Vessels berthed at the Jetties.

7. Two hundred and fifteen vessels with an aggregate tonnage of 728,446 were accommodated at the Jetties.

The following table shows the number of vessels detained for want of berths:—

	44	63	141 vessels.
	94	110	391 days.

Besides the above, 65 vessels with a tonnage of 192,787 discharged at the docks for want of accommodation at the Jetties. Although 66 per cent. of import cargo steamers were delayed for want of jetty berths, the average period during which each of the berths were vacant during the year was 19 days.

The Commissioners are providing additional accommodation at the Jetties.

Of the small river charts published, 95,564 copies were distributed to Pilots, Harbour Masters and the shipping, against 86,946 copies in 1904-05.

9. Mr. F. G. Dumayne held the office of the Vice-Chairman throughout the year.

By the amendment of the Calcutta Port Act, 1890, the number of Commissioners have been increased from 15 to 16, and the Chamber of Commerce has been authorised to elect six representatives instead of five.

The thanks of the Lieutenant-Governor are due to the Commissioners for their able management of the affairs of the Trust during the year under review.

By order of the Lieutenant-Governor of Bengal,

W. A. INGLIS,

Secretary to the Government of Bengal.

THE MONSOON OF 1906.

THE following report is published for general information.

R. W. CARLYLE,
Offg. Chief Secy. to the Govt. of Bengal.

The 21st January 1907.

RAINFALL: SUMMARY FOR THE MONSOON PERIOD OF 1906.

THE following remarks are intended to give a brief account of the distribution of actual rainfall over the Province of Bengal during the past South-West Monsoon, *i.e.*, for the period May to October, without any attempt to discuss the atmospheric conditions with which the rainfall is generally associated.

The cold-season months of January and February were remarkable for the heavy rainfall that occurred throughout the Province, more especially February, the total rainfall for which month was exceptionally heavy, being 490 per cent. of the normal in South-West Bengal, 420 in Bihar, 380 in Orissa and 690 in Chota Nagpur, and the number of rainy days being from three to five times greater than usual.

During the month of March, the fall was nearly double as much as usual in Chota Nagpur and South-West Bengal. It was in excess in Bihar, but in large defect in Orissa.

In April, the rainfall was in defect in every Division.

The month of May was characterised by generally deficient rainfall over the whole Province. The defect was greatest in South Bihar and Chota Nagpur, the districts of Gaya, Patna and Shahabad recording less than 40 per cent. of the normal, and Hazaribagh, Palamau and Manbhum less than 50 per cent. In Sambalpur only, a tenth of an inch of rain fell during the whole month. Jessore, Darbhanga and Monghyr were the only districts that received more than the normal amount. Little or no rain fell till the 10th of the month, except in Darjeeling and Thibet. In South-West Bengal, rain was fairly general from the 10th to the 21st, when it diminished to some extent. In Orissa and Chota Nagpur, scattered showers fell from the 10th to the end of the month.

The month of June is of special interest, as the advance of the monsoon current up the Bay and the commencement of the rains in Bengal usually take place during this month. The monsoon during the past year can scarcely be said to have "burst" on any particular day in Bengal, but it may be regarded as having actively set in about the 18th of June (as noted in the monthly summary for the month of June by the Meteorologist, Calcutta). Although the monsoon was established in Lower Bengal about the middle of June, rainfall was deficient in all Divisions, the defect being greatest in South-West Bengal. Taking the district returns, Balasore and a few districts in Bihar alone received an excess rainfall, while nearly every district in South-West Bengal and Chota Nagpur received less than 70 per cent. of its normal amount.

In July, though rainfall was of a monsoon character, it was not equally distributed in all the Divisions of the Province. Bihar and Chota Nagpur received an excess of 104 and 105 per cent., respectively, while there was slight defect in South-West Bengal and Orissa, the former receiving 94 per cent. of the normal and the latter 91 per cent.

The month of August was marked by very heavy precipitation in some parts of Bihar. The districts of Saran, Champaran, Muzaffarpur, Darbhanga, Bhagalpur, Darjeeling and Purnea, received an average rainfall in considerable excess of the normal. The departure from the normal at Saran was +5·01, at Champaran + 15·37, at Muzaffarpur +11·29, at Darbhanga + 12·55, at Bhagalpur + 3·33, at Darjeeling + 23·87 and at Purnea + 10 11

inches. Expressed as a percentage, on the normal, the above districts received 146, 220, 203, 200, 129, 196 and 167 per cent. respectively. The districts of Burdwan, Birbhum, Nadia, Murshidabad and Jessore also received an average in excess of the normal varying from 2 to 5 inches.

The most striking feature in the rainfall of September was the partial break in the rains throughout the Province from the 15th to the 24th. The rainfall was deficient in all districts with the exception of Nadia and Jessore (in South-West Bengal), Gaya (in Bihar), Balasore (in Orissa) and Singhbhum (in Chota Nagpur) where it was in slight excess. The rainfall during the month was more or less of a local character. Expressed in percentage figures, the districts of Nadia and Jessore received 123 and 121 per cent. respectively, Gaya 121 per cent., Balasore 116 per cent., and Singhbhum 125 per cent.

About the middle of October, there was again a partial break in the rainfall, but towards the end of the month, rain fell in all the Divisions, except Bihar. The fall was below the normal only in the district of Khulna in South-West Bengal, while in Bihar there was a general defect, except in the Sonthal Parganas. Rainfall was also deficient in Orissa (in the districts of Angul and Balasore) and in Chota Nagpur (in the districts of Hazaribagh, Palamau and Singhbhum). The total rainfall for the month shows a considerable excess in South-West Bengal and Chota Nagpur, and a considerable defect in Bihar and Orissa.

On the whole, the South-West Monsoon rainfall of 1906 was ill-distributed, especially in North Bihar.

Expressed as a percentage, South-West Bengal received during the whole period, 87 per cent. of the normal, Bihar 94 per cent., Orissa 79 per cent., and Chota Nagpur 84 per cent. Of the four Divisions, Bihar alone received about its normal average.
